The year in photos!

Here are just a few of our favorites.

R.I. Senator Sheldon Whitehouse visits Twisted Throttle!

Teach McNeil lapin' down some nice "trix" in the old Twisted parking lot. See page 237 for more about Teach.

Dan from GSM MotoRent taking the Twisted Tenebre to new heights. See page 234 for details about this Killer Tenebre.

River crossings are synonymous with Alaskan adventure. See page 238 for more about MotoQuest Tours.

PR Manager, Ken, shortly after riding one too many wet laps at the Loudon Racetrack. Don't ask.

Patrick Trahan "in deep" somewhere in Africa. Turn to page 236 for a report on Patrick's African adventure... and mishaps.

Erik's Italian grandparents.

2012 will be even better!

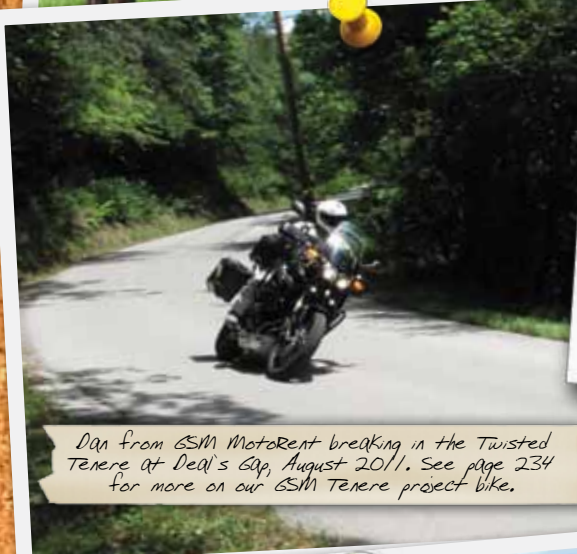

STOP BY AND SEE US!

Turn to page 240 for Events and Rally dates across the country.

The Twisted Donkey. He's always making an ass of himself at our staff parties.

Dan from GSM MotoRent breaking in the Twisted Tereze at Deal's Gap, August 2011. See page 234 for more on our GSM Tereze project bike.

"Motoquest Phil's" happy KLR relaxing on the Denali Highway in Alaska last August. See page 238 if you want to join Motoquest on this ride next year!

Visit our new World Headquarters!

Twisted Throttle has moved to our new location at 570 Nooseneck Hill Rd, Exeter, RI 02822

This ain't no sideways move...no way! The new place is modern and marvelous with 27,000 square feet of space that includes a retail store, warehouse, installation bays, tire changing services, prototyping workshop, and videography studios. It even has a bar (cola on the rocks, please), a presentation stage, a 10' wide movie screen, and PINBALL machines!

Twisted Throttle is already a favorite destination for many of our customers, but the easily accessible location off I-95 in Exeter, RI will make spontaneous ride-ins and planned long-distance visits faster and more fun. Not only is the new location perfect for hanging out with fellow riding fanatics, it's also great for holding seminars, maintenance days, training events, moto movie nights, holiday parties and other epic happenings.

Come check out our new digs during our 10th Anniversary Open House Party on May 19, 2012!

Scan this code to view a map and get directions to our location.

Follow us on Facebook, Twitter & YouTube

Follow us on **Facebook** and **Twitter** where you will be able to provide product design feedback, see new product announcements, and get insider special offers! And, follow us on **YouTube** to see more about our products, and our project bike builds!

You can also sign up to receive our **Email Newsletter** so you can stay on top of all of the Twisted happenings.

What are these strange boxes?

They are called QR Codes. Use your smart phone's QR code reader app to scan QR codes to view videos and relevant web pages with detailed product information. **Don't have a fancy phone?** Visit TwistedThrottle.com to sign up for our Facebook, Twitter, or YouTube channels and email newsletter!

About Twisted Throttle...

OUR MISSION

If you're asking yourself "What Fits My Bike?", then you've come to the right place! Twisted Throttle specializes in bolt-on equipment that makes your metric motorcycle better protected, more comfortable, and more practical for battle commuting and long-distance travel. We've done the homework so you can easily find detailed bike-specific product fitting information, photos, installation tutorials, and reviews of the items you need most. We can outfit *YOUR* bike's make, model, and year, regardless of how obscure, so that you'll be ready for your next journey of a lifetime.

CUSTOMER SERVICE

We know motorcycles, and we know our product! All Twisted crew members have a motorcycle driver's license. Many are trained experts that have been installing and using the gear in this catalog for many years. If you have questions on any item or order, please call us at +1 (401) 284-4200. If we don't have the answer we will find it for you!

COME VISIT!

If you are traveling through New England, come visit our showroom in Exeter, Rhode Island! Give us a call and we'll help you with hotel or camping arrangements, directions, etc. You can download maps and directions at TwistedThrottle.com/contact.

DEALERS – WE WANT YOU!

Interested in selling products distributed by Twisted Throttle? Visit TwistedThrottle.com/becomeadealer to get started.

CATALOG

Visit Twistedthrottle.com/getacatalog to let us know if you would like to receive a catalog, or if you wish us to send a catalog to a friend.

MAILING LIST

We do not share our mailing list with any outside organizations, and will only send you our email newsletter upon your request. Twistedthrottle.com/newsletter

WHERE ARE ALL THE PRICES?

If we left out the price of an item, please visit us at www.TwistedThrottle.com, drop us an email (info@twistedthrottle.com) or call us at +1 (401) 284-4200 or toll free +1 (855) 255-5550 for pricing. Prices printed in this catalog are subject to change at any time.

Twisted Product Designer, Nate, testing the D2B and D3B DrySpec Dry bags.

Graphic Designer and videographer, Matt B, soon after "testing" SW-MOTECH's Versys crashbars in Austria.

Scan the QR to see a video of how the SW-MOTECH Versys fared after Matt's Alps get-off!

Crashbars

Yamaha XT1200Z Super Tenere

SBL.06.162.10000.B

SW-MOTECH Crashbars offer rugged protection for your motorcycle. Each crashbar is carefully designed for an integrated look, precision fit, and heavy-duty performance.

During production, crashbars are sandblasted, and powdercoated to provide corrosion-resistant and glossy finish.

Starting At
\$159⁹⁹

See the "What Fits My Bike?" section of the catalog (pages 156-227) for bike-specific crashbar information.

KTM LC8 Adventure 990

BMW F650GS Twin / F800GS

SBL.07.556.100

Upper Tank Crashbars for BMW R1200GS

SBL.07.565.100

Now available for the **BMW R1200GS**, our beefy upper tank crashbars provide additional protection for your off-road adventure. Upper tank crashbars can only be installed in addition to our lower crashbars.

The upper crashbar includes integrated mounting points for auxiliary driving lights. Check out our Denali auxiliary driving light kits on page 68.

See page 166 for more items for the **BMW R1200GS**.

SBL.07.552.100 - 04-07

\$254⁹⁹

SBL.07.565.100 - 08-12

\$244⁹⁹

Crashbar Accessories expand the versatility of your crashbars. With these accessories you are able to quickly and easily mount auxiliary lighting, footpegs, and cameras onto all common handlebar and crashbar sizes.

Auxiliary Light Mounting Clamps

Triumph Tiger 1050 Crashbars with Denali LED Lights

Easily mount your favorite auxiliary lighting to your crashbar using this mounting kit. The kit includes everything you need to securely mount one pair of lights to your handlebars or crashbars with diameters from 21.3mm (.85") to 26.9mm (1.07"). Your lights will illuminate your way into the night and give you that extra bit of conspicuity to alert drivers to your presence. When it comes to choosing premium lighting kits, we recommend the Denali D1 or Denali D2 lighting systems. See pages 64-67 for details.

Auxiliary light mounting clamps	Notes	Price	Part Number
Fits 21.3 mm, 7/8" (22mm), 1" (25.4mm), 26.9mm, and 1-1/8" (28mm) diameter bars. Pair.	Fits SW-MOTECH, Givi, and most other aftermarket and original crashbars. Available in black or silver.	\$49.95	TM.51125
Denali light kits	See pages 64-67.		Various

Footpegs

If you'd like to increase comfort for those long trips, you may want to consider mounting footpegs onto your crashbars. *MFW's* sweet bar-mounted footpeg system is easy to install and looks cool. There are three footpeg styles to choose from. Footpegs and folding footpeg mounts are sold separately (you need one pair of each).

Want even more ergo adjustments? Check out *MFW's* adjustable footpegs on page 32.

Footpegs	Notes	Price	Part Number
Super Grip anti-vibration footpegs, pair	Mounts to any 1/4" (6mm) diameter hole. Silver or black with black rubber footbed.	\$60.00	MFW.050.00.04.00
Master Grip footpegs, pair	Mounts to any 1/4" (6mm) diameter hole. Silver or black.	\$40.00	MFW.050.00.03.00
Racing footpegs, pair	Mounts to any 1/4" (6mm) diameter hole. Silver or black	\$40.00	MFW.050.00.01.00
Folding footpeg mounts	Notes		Part Number
Bar-mounted folding footpeg mounts, pair	Fits 0.85" (21.3mm) - 1.125" (28mm) diameter bars, including all SW-MOTECH and Givi crashbars. Footpegs sold separately. Silver or black.	\$80.00	MFW.SBL
Flush-mounted folding footpeg mounts, pair	For any flat surface with a 10mm mounting hole, including the built-in mount hole on SW-MOTECH crash-bars for Kawasaki KLR650E or BMW F800GS/F650GS Twin. Footpegs sold separately. Black.	\$60.00	MFW.050.00.10.M10

Camera Mounts

Universal Camera Mount Kit

Includes bar mount, 3" extension arm, and camera holder with 1/4-20 threaded stud. Fits most typical video cameras with a threaded hole. Fits bars up to 1.25" diameter.

RAM-B-149Z-C1U
\$33.18

GoPro Adapter

Connects a GoPro camera to the Universal Camera Mount Kit.

GPR.GTRA30
\$7.99

Go to page 56 for GoPro cameras.

Contour Mount Kit

Includes bar mount, 3" extension arm, and camera holder with 1/4-20 threaded stud for Contour GPS and Contour HD cameras. Fits bars up to 1.25" diameter.

RAM-B-149Z-237U
\$31.18

Go to page 51 for more camera mount options.

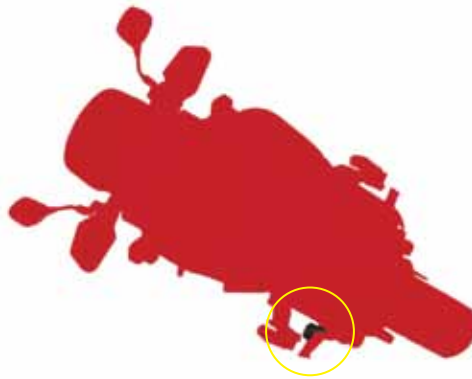

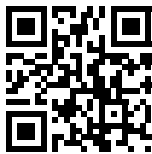

Centerstands

Centerstands make tire changes and chain maintenance much easier. Our centerstands are tested to make sure they do not limit the bike's maximum lean angle or ground clearance.

Centerstands are constructed using mild steel tubing. Prior to powder-coating, all centerstands are sandblasted and chemically treated to provide the best protection against corrosion.

See the "What Fits My Bike?" section of the catalog (pages 156-227) for bike-specific centerstand information.

Scan this code for an explanation of how and when to use a centerstand.

Does not limit maximum lean angle

KLR650 centerstand lifting handle (all years)

Aluminum Skid Plates

Our engine guards are constructed from laser-cut, TIG-welded aluminum and provide heavy-duty protection from stone chips, underside stump collisions, and other ride-ending calamities.

Most skid plates feature:

- Oil drain plug access hole.
- Rubber mounting to minimize noise and vibration.
- Recessed mounting bolts to prevent damage against rocks and stumps.
- Riveted construction.
- 4mm bottom plate and 3mm side plate that overlaps for a total of 7mm of side rail thickness.

Radiator and Oil Cooler Guards

Protect your radiator from rocks, bugs, and other UFOs. SW-MOTECH and R&G radiator guards and oil cooler guards improve the looks of your bike and help to protect your expensive and vulnerable radiator and oil cooler from flying debris. Instructions and all mounting hardware are included. No drilling, welding, zip ties or duct tape needed.

Handlebar Risers & Conversion Kits

Handlebar Riser on Ducati Multistrada 1200

LEH.22.039.10000

Handlebar risers

Handlebar risers change the position of the handlebar for greater comfort during long rides. Handlebar riser kits are CNC-milled from billet aluminum or die cast. All required mounting hardware included.

Most models

\$57 to \$119

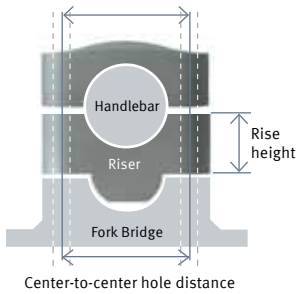

Universal Handlebar Risers

LEH.00.039.150

Traditional handlebar risers

move the handlebar straight up from its original position and are available in heights ranging from 20mm (0.8") to 50mm (2"). Available for 22mm and 28mm diameter bars.

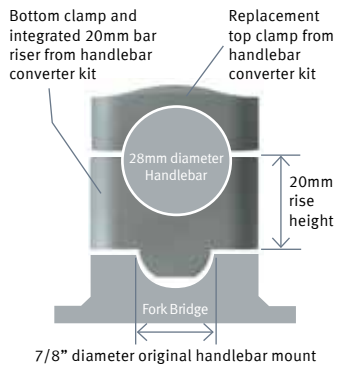

Handlebar Conversion Kits

LEH.00.039.160

Handlebar conversion kits

combine a 20mm riser with the ability to use a 28mm diameter "fatbar" on a bike that originally used 22mm diameter handlebars.

Universal handlebar risers		
For 7/8" (22mm) diameter bars	Notes	Part Number
20mm (0.8") rise	Fits hole distances 32-38mm w/ M8 bolts. Black or Silver	LEH.00.039150.20
25mm (1.0") rise	Fits hole distances 32-38mm w/ M8 bolts. Black or Silver	LEH.00.039150.25
30mm (1.2") rise	Fits hole distances 32-38mm w/ M8 bolts. Black or Silver	LEH.00.039150.30
50mm (2.0") rise	Fits hole distances 32-38mm w/ M8 bolts. Black or Silver	LEH.00.039150.50
31mm (1.25 ") up and 22mm (7/8") back	Fits hole distances 32-38mm w/ M8 bolts. Black or Silver	LEH.00.039.152
For 1.125" (28mm) diameter bar	Notes	Part Number
30mm (1.2") rise	Fits hole distances 37-46mm w/ M8 bolts. Black or Silver	LEH.00.039.20300
30mm (1.25 ") up and 22mm (7/8") back	Fits hole distances 37-46mm w/ M8 bolts. Black or Silver	LEH.00.039.20000

Universal Up & Back Handlebar Riser

22mm: LEH.00.039.152

28mm: LEH.00.039.20000

Up-and-back risers move the handlebar both upwards and rearward towards the rider.

See more photos of our handlebar risers at twistedthrottle.com

ULTIMATE PROTECTION **Barkbusters** HANDGUARDS

The ORIGINAL Motorcycle Handguard! The Barkbusters brand of handguards was first manufactured in 1984. With over 28 years of motorcycle industry experience and an enthusiasm for riding motorcycles, the people at Barkbusters know what it takes to develop the finest handguards available on the market today.

Barkbusters integrates a hardened aluminum backbone with a stylish, replaceable plastic guard to create a truly functional handguard. No more busted levers or knuckles! In the unlikely event that you break a part of the handguard, every piece is replaceable.

These are the toughest handguards anywhere – they don't call 'em Barkbusters for nothing!

Barkbusters handguards are designed to work with Kaoko throttle locks (See page 16-17).

Barkbusters VPS Full-Wrap Supermoto and Adventure Bike Handguards

Versatile full-wrap handguards that blend heavy-duty obstacle armor with moderate weather protection.

VPS (Variable Protection System) Handguards are designed for **bikes with long brake and clutch levers**, including most street and adventure-touring bikes. The hardened aluminum backbone prevents damage to your levers in case of a tip-over and has a relatively compact profile appropriate for trail riding.

Available with black, blue, green, red, yellow, silver, orange, white or pink plastics. A **Variable Height Wind Deflector** is included to provide extra wind protection. See pages 14-15 for fitting information.

Barkbusters VPS-MX Single-Sided Motocross Handguards

Single-sided handguards for competition motocross use.

Barkbusters VPS-MX handguards use VPS plastics on a **single-sided mount**, providing a lightweight handguard that meets competition motocross regulations.

This handguard comes with an easy to install, clamp-on mounting kit that fits all 7/8" diameter handlebars. The handguard allows plenty of clearance for bikes with longer levers. The design incorporates high impact nylon brackets to firmly support the plastic VPS guard. The handguard position can easily be adjusted.

Available with black, blue, green, red, yellow, silver, orange, white or pink plastics.

Variable Height Wind Deflector

These optional variable height wind deflectors can be installed to provide extra wind protection. Available in black or white only. **BB.BHG4: \$15.00**

Barkbusters Ego Enduro and MX Handguards

Ultra-compact full-wrap handguards ideal for tight off-road trail use.

Ego handguards are the smallest full-wrap handguards made by Barkbusters. They are specifically designed for enduro and MX bikes with **short levers**. Their compact design helps you avoid hitting trees during intense trail riding.

Available with black, blue, green, orange, red, white or yellow plastics. See pages 14-15 for fitting information.

Barkbusters Storm Street and Adventure Bike Handguards

Maximum wind and rain protection for street and adventure-touring bikes!

Storm handguards have an aerodynamic design and a larger profile that wraps around the hands to offer excellent wind and weather protection. The wide profile is great for street riding and open trails, but is less suited for tight off-road, single track use.

Storm handguards are available in single-point and full-wrap mounting styles. Single-point mounting styles provide the cleanest look and easiest installation on street motorcycles. Full-wrap mounting styles connect to your handlebar at two points and are recommended for maximum strength on dual-sport and adventure touring bikes.

Available with black or chrome plastics. Chrome plastics are not recommended for off road use.

Storm

Storm Handguards are available in three mount styles:

Storm Full-Wrap Backbone

Two mounting points make this the strongest backbone available.

BB.S4
from: **\$98.00**

Storm Open-ended Backbone

Designed specifically for street bikes and mounted to a single point on the handlebars.

BB.S1
Fits 7/8" diameter bars
BB.S2
Fits 1" diameter handlebars

from: **\$109.99**

Storm Bar End Mount Backbone

This aluminum frame mounts to the end of the handlebar. Ideal for bikes without space on the handlebar or other mounting methods.

BB.S5
Fits hollow 7/8" or 1" diameter handlebars
BB.S7
Fits bar ends with a 6mm or 8mm threaded hole

from: **\$109.99**

See pages 14-15 to find mounting hardware that fits your bike.

Optional Accessories

VPS Variable Height Wind Deflector (included with Full-Wrap VPS handguards)

These optional variable-height wind deflectors provide extra wind protection. Available in black or white only.

For VPS & VPS-MX Handguards only.
BB.BHG4: \$15.00

VPS skid plates

These optional replaceable skid plates protect the outer end of the backbone during a tipover or low side. Perfect for Supermoto bikes. For VPS guards only.

BB.BHG2: \$15.00

Barkbusters Bar End Weights

Add 180 grams of mass to each end of your handlebars to reduce vibration.

Compatible with full-wrap Storm and VPS Handguards.

BB.B66 \$45.00

Training Bike Handguards

NEW

NEW! Barkbusters handguards for training bikes. Finally, a solution to the problem of damaged levers after a student drops a training bike. Any motorcycle safety instructor can tell you just how common this problem is. Not only do these handguards protect levers from costly and time-consuming repairs, but they protect the student's hands in the process. Discounted fleet pricing available for motorcycle training schools.

BB.BLG5: Fits Suzuki GZ250
BB.BLG6: Fits Kawasaki BN125 Eliminator
BB.BLG7: Fits Suzuki TU250
\$79.99 per set

ULTIMATE PROTECTION
Barkbusters
 HANDGUARDS

Barkbusters Handguards

Below are the bike-specific kits for the VPS, EGO, and Storm handguards.

Storm

VPS

EGO

How to Order Barkbusters Handguards: Follow the 4-step process for selecting the exact handguard you want.

STEP 1

FIND your bike in the Application Chart

If your bike is not listed, or you've installed aftermarket handlebars on your bike, see the aftermarket handlebar application chart at the end of the next page for fitting information.

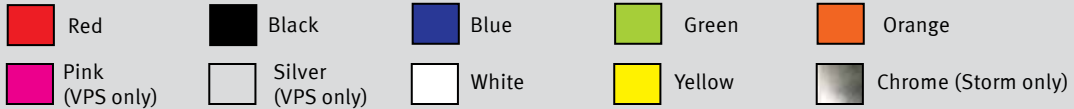

STEP 2

ORDER chosen Guard, Mounting Kit, and any Extra Parts

Determine what handguards are available for your bike. If there is a **part number** in the **Storm, VPS, or EGO** column next to your bike model, that style is available for your bike. Order using that part number, **plus** any "mounting kit" or "extra parts" listed for that bike.

STEP 3

CHOOSE Plastics Color

STEP 4

CHOOSE Optional Accessories

Bar end weights, VPS Wind Deflectors, or VPS skid plates (from previous page).

Aftermarket handlebar application chart

ORDER Barkbusters full-wrap handguards for unlisted bikes or aftermarket handlebars.

What to Order:

- STEP 1** Order the backbone for handguard style.
BB.ES14 backbone for EGO handguards
BB.BHG1 backbone for VPS or Storm handguards
- STEP 2** Find your handlebar in the chart below and order the corresponding "mounting kit" and "extra parts" listed.
- STEP 3** Choose plastics color from chart on previous page.
- STEP 4** Choose optional accessories.
Bar end weights or VPS skid plates shown on page 13.

Handlebar type	Full-wrap Mounting Kits
22mm (7/8") hollow-tube handlebars with a 14mm or 18mm Inside Diameter (ID)	BB.BSC.STD
Acerbis PHS Evol	BB.BTC.06
Barkbusters VSB	BB.BTC.00
Fly (high bend)	BB.BTC.01
Fly AERO (not high bend)	BB.BTC.00
Fly AERO McFly	BB.BTC.06
Fly Mini Bars	BB.BTC.06
G-YTR	BB.BTC.06
Hebo	BB.BTC.06
Magura	BB.BTC.01
Pazzaz	BB.BTC.00
Pro Taper Contour	BB.BTC.06
Pro Taper Easton	BB.BTC.06
Reikon DSC	BB.BSC.STD
Reikon Taper	BB.BTC.06
Rental Fat Bar	BB.BTC.06
Rental Twin Wall	BB.BTC.00
Star Booster Bar	BB.BTC.01
Tag T2 (most models)	BB.BTC.06
Universal Mounting Kit for VPS plastic guard	BHG7-UMK
2009 Tag T2 models with codes 7221, 9661, 9711, 6091, 7901, 7841	BB.BTC.06
Extra Parts (may be required for some applications)	
Triple clamp mount (fits most bikes, not KTM or Husaberg)	BB.TCM
Angled swivel clamp (replaces clutch-side straight swivel clamp on KTM models with Magura or Rental handlebars AND Brembo clutch activators)	BB.B54

KAOKO
Cruise Controls

Kaoko™ Cruise Control Kits

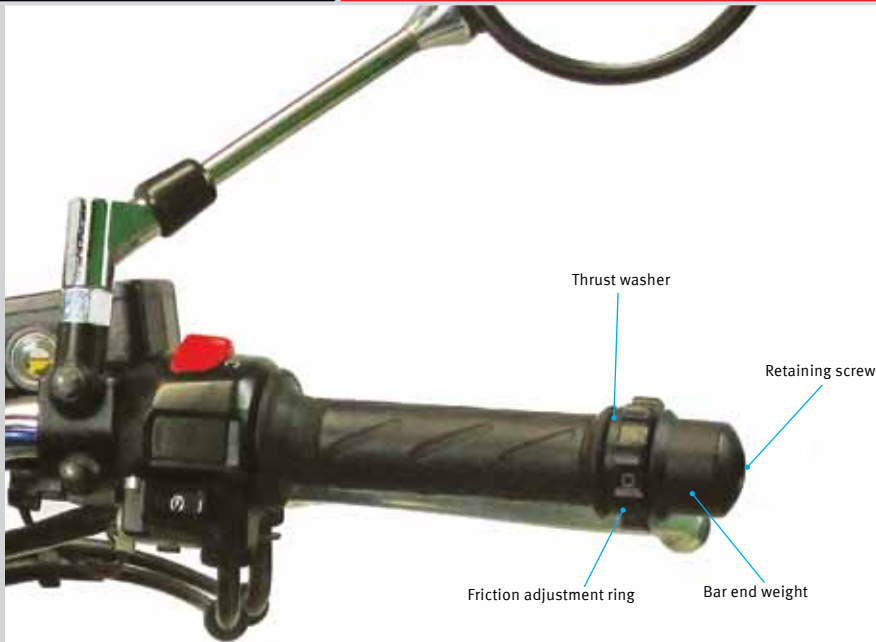

Relieve fatigue and strain on your hand and wrist by locking the throttle mechanism in place. Operation is simple and smooth through the use of a knurled friction adjustment ring. The rider simply sets the throttle and rotates the friction adjustment ring to lock at the desired throttle opening.

For most models, Kaoko designs their bar end weight to match the appearance and weight of the original OEM bar end weight.

To install, just remove the original right hand bar weight, replace it with Kaoko's bar weight, and firmly tighten the central retaining screw.

- Reduces strain on hand and wrist
- While cruising, the rider can relax or remove the throttle hand from the grip and the throttle will remain as set.
- Very simple to operate, even with heavy winter gloves.
- Takes less than 5 minutes to install.

R&G Racing Products

R&G Racing offers a wide range of products to fit most modern sportbikes, including frame sliders, front axle sliders, bar end sliders, exhaust and tank protectors, and aluminum radiator guards.

R&G Racing sets the bar high when it comes to manufacturing innovative crash protection. Modern CNC machining, aircraft-grade metals and cooperative R&D testing with the California Superbike School and motorcycle insurance companies help R&G to produce the toughest, most functional sport bike protection on the planet.

R&G Racing also offers 11-position adjustable rearsets, toe chain guards and fender eliminator kits for many sportbike models.

Public Relations Manager
"Hollywood" Ken Condon

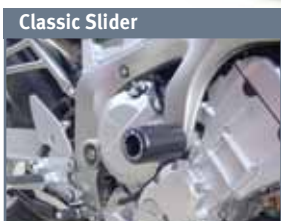

Frame Sliders

R&G constructs their frame sliders from heavy-duty machined steel and aluminum, low friction HDPE (high-density polyethylene), and a frame mount design that provides maximum support. R&G also uses special high-tensile steel mounting bolts that withstand the force imposed by the vast majority of crash situations. In the event of an extreme impact, these bolts are designed to bend rather than snap off and leave the bike completely unprotected. Bending is good, because it will continue to protect well after impact. You can inexpensively fix single-sided crash damage with the purchase of one-side "half kits". R&G frame sliders come in two styles, "Classic" and "Aero".

Starting At
\$96⁰⁰
per pair

Classic Style Frame Sliders

Traditional cylindrical shape

Classic Slider

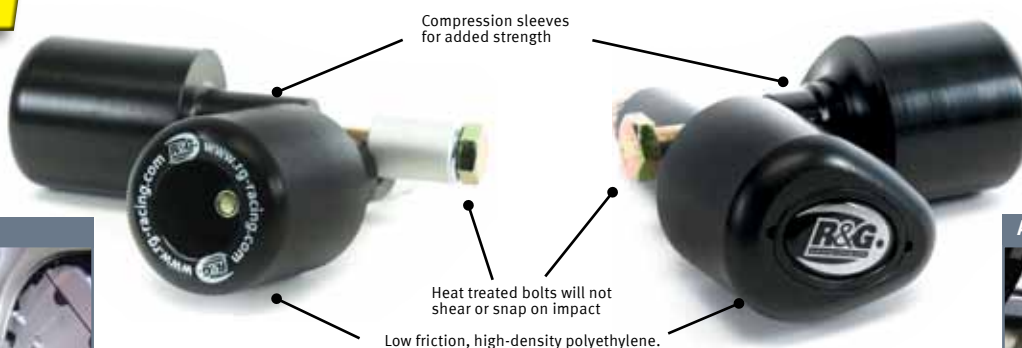

Aero Style Frame Sliders

Starting At
\$105⁰⁰
per pair

Aerodynamic and stylish teardrop shape

Aero Slider - BMW S1000RR

Compression sleeves for added strength

Heat treated bolts will not shear or snap on impact

Low friction, high-density polyethylene.

Cutting the fairing is required on some motorcycles. No-cut Frame Sliders are available for a growing number of models. See pages 156-227 for bike-specific applications or visit twistedthrottle.com for applications.

Underbody Sliders also available for some models.

These sliders sit just behind the fairing panels for support in the event of a crash. The fairing may be sacrificed, but the underbody slider provides better protection for the motorcycle frame and engine without the risk of the slider catching on the road and flipping the bike. This is a tried and true form of frame protection used in AMA, World Superbike, and MotoGP racing. Underbody Sliders are a viable no-cut alternative, and in most cases, are a lower cost option. Available for the Ducati 1098/1198/848, MV Agusta 312R/312RR, Kawasaki Ninja 650R, and more!

Underbody Slider for Kawasaki Ninja 650R

Frame Skidders

Frame Skidders are a new type of frame slider. R&G Frame Skidders combine excellent crash resistance with subtle styling compared to a traditional frame slider. You can inexpensively fix single-sided crash damage with the purchase of half kits.

Made from high-density polyethylene

Starting At
\$187⁰⁰
per pair

2011 Aprilia Tuono

Check page 24-27 to see which R&G products are available for your bike.

Axle & Swingarm Sliders

Front Axle sliders and swingarm sliders and spools protect your swingarm and axles from crash damage. Each slider is constructed of heavy-duty machined steel and aluminum with high-density nylon pucks for maximum protection. These sliders also give your bike a race look.

Front Axle Sliders

Starting At
\$57⁰⁰
per pair

Front axle sliders protect expensive axles, fork legs and calipers with a through-bolt design for secure and easy installation.

All necessary hardware included

Swingarm Sliders/Spools

Starting At
\$42⁰⁰
per pair

Swingarm spools protect the swingarm from damage *and* provide a secure support when lifting your bike using a race stand.

Constructed from tough high-density polyethylene

Offset Swingarm Sliders/Spools

Starting At
\$80⁰⁰
per pair

Offset swingarm spools are offset-mounted using an aluminum block, ideal for swingarms with or without threaded bosses. Protect your swingarm while providing a secure lifting point when using a race stand.

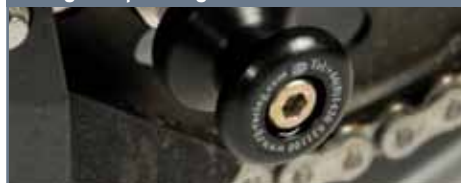

Black anodized aluminum bracket (included)

Front Axle Slider - Triumph Sprint GT

Swingarm Spool - Tiger 800

Offset Swingarm Spool - BMW S1000RR

Bar End Sliders

Bar end sliders are designed to protect your bar end and upper fairing and windscreen. R&G bar end sliders are made from steel and high-density nylon and are designed not to snap off on impact. R&G bar end sliders are a direct replacement of the original bar end weights on your bike.

Starting At
\$43⁰⁰
per pair

Constructed of tough steel and high-density polyethylene

Check page 24-27 to see which R&G products are available for your bike.

Radiator & Oil Cooler Guards

Radiator Guards

Your radiator is a vulnerable component that needs protection. The R&G radiator guard is made from pressed aluminum and features a neat, seamless frame. The attractive black finish looks terrific while helping to protect the expensive radiator from flying debris.

Starting At
\$70⁰⁰

Oil Cooler Guards

Wouldn't it stink to be miles from anywhere when you find out that something put a hole in your oil cooler? Avoid that nightmare with an R&G oil cooler guard. These black, pressed aluminum oil cooler guards will prevent punctures caused by flying rocks, sticks and other objects. Easy to install, protective, and good looking.

Starting At
\$68⁰⁰

Triumph Tiger 800 XC Radiator Guard

BMW R1200GS Oil Cooler Guard

Engine Case Covers

R&G Racing Engine Case Covers

are an easy, inexpensive, and innovative way to protect vulnerable and expensive crankcases and water pump cases from crash damage. The R&G engine case covers are vacuum-formed from durable 4mm polypropylene for great protection and good looks. These covers are motorcycle-specific and form-fit to simply bolt over the existing OEM covers.

Includes all necessary mounting hardware.

BMW S1000RR Engine Case Covers

Starting At
\$76⁰⁰
per cover

Tank Sliders

R&G Tank Sliders are made from Kevlar-reinforced carbon fiber, offering excellent crash protection and wear resistance. Tank sliders are specially molded to fit onto the area of the fuel tank that is most likely to take a hit in a crash or drop. Save your tank from scratches and dents that can lead to an expensive replacement. Installation is quick and easy with included self-adhesion panels.

Starting At
\$107⁰⁰
per pair

Yamaha R6 (06-) Tank Sliders

Check page 24-27 to see which R&G products are available for your bike.

Adjustable Rearsets

R&G Adjustable Rearsets allow you to tune your motorcycle's ergonomics for maximum comfort and control. R&G Adjustable Rearsets offer an exceptionally wide range of adjustability with 11 mounting positions. The shift and brake levers are height and angle adjustable and the location of the toe contact pieces can be modified to suit every rider. Specially textured footrests ensure maximum grip in all conditions. R&G Adjustable Rearsets are beautifully crafted from black powdercoated billet aluminum for a strong yet lightweight rearset with an exquisite custom look. Available for both street and race shift patterns (street pattern = 5 up, 1 down, and race pattern = 1 up, 5 down).

Starting At
\$429⁰⁰

per set

BMW S1000RR Adjustable Rearset, left side (street shift pattern)

BMW S1000RR Adjustable Rearset, right side

Exhaust Protectors

R&G Exhaust Protectors reduce the likelihood of scrapes to your exhaust can from a fall. Exhaust protectors feature a large shock absorbing thermal silicone rubber piece underneath protective slider. The clamp is incorporated into the design, making installation quick and easy.

Starting At
\$43⁰⁰

BMW S1000RR Akropovic exhaust with Exhaust Protector

Exhaust Hangers

Exhaust Hangers provide a custom-looking, lightweight alternative to your original exhaust hangers. Replaces the passenger peg mount for those sport bike riders who ride solo. A passenger footrest blanking plate (sold separately) is available for the non-exhaust side for a custom look (see next page for footrest blanking plates).

Starting At
\$76⁰⁰

Kawasaki ZX10R equipped with Exhaust Hanger (using passenger peg mount)

Check page 24-27 to see which R&G products are available for your bike.

Frame Plugs, Blanking Plates & Mirror Block-off Plates

Frame Plugs fill frame voids to keep dirt out and to conceal unsightly swingarm pivot or motor mount hardware for a clean, custom look. Mounting hardware is included.

Starting At
\$23⁰⁰

Frame plug installed

Frame Plug - BMW S1000RR

Footrest Blanking Plates are for solo riders who choose to remove the passenger footpeg brackets. These plates tidy up the rear of your bike after removing the rear footrest hangers. Mounting hardware is included.

Starting At
\$43⁰⁰

Passenger footpeg bracket removed

Blanking Plate - BMW S1000RR

Blanking plate installed

Mirror Block-off Plates

cover the exposed mirror mounting bracket after the mirrors are removed. These aluminum block-off plates are popular with track day riders who must remove their mirrors for safety and for custom sport bike builders who choose a custom mirror option. The block-off plates also keep the fairing from flapping when the original mirrors are removed. Mounting hardware is included.

Starting At
\$51⁰⁰

Mirror removed

Mirror Block Off Plate - BMW S1000RR

Block-off plate installed

Toe Chain Guards

Toe Chain Guards keep your feet or hands from being caught between the chain and rear sprocket in the event of a crash. R&G toe chain guards are made from either ABS, aluminum or lightweight, high-density polyethylene, depending on the application.

Starting At
\$43⁰⁰

Toe Chain Guard for Suzuki GSX-R600 and GSX-R750 ('11-)

Check page 24-27 to see which R&G products are available for your bike.

Rear Huggers & Fender Eliminators

Rear Huggers are designed to enhance the look of your bike and protect the shock and sub-frame under tray from dirt and debris that is kicked up by the rear tire.

Starting At
\$132⁰⁰

Fender Eliminators clean up the visual clutter of the typical original rear fender. The kit includes an integrated license plate holder and LED license plate illumination light.

Starting At
\$58⁰⁰

Honda VFR1200F Hugger

Honda CBR1000RR Fender Eliminator

Shock Protectors

R&G Shocktubes prevent damage to your rear shock caused by road salt, water spray, stone chipping, dust and dirt. The Shocktube is a high-impact, waterproof, vented Neoprene™ tube that is lined with stretch nylon on both sides.

The Shocktube can be fitted to most motorcycles with either monoshock or twin shock systems without the need to remove the shock absorber!

Starting At
\$42⁰⁰

Knee Sliders

R&G Aero knee sliders are offered in a medium compound and are ergonomically designed for maximum comfort, by means of a unique shaping against the knee. They are interchangeable for maximum use. As used and tested by many racers and the California Superbike School.

\$43⁰⁰

RG.AKS0001

Bike Covers

R&G Motorcycle Covers are the next best thing to a secure garage. R&G bike covers are waterproof and breathable with a soft liner inside the top of the cover to protect your bike's paint. Loopholes are located at both ends of the cover to accept a lock and chain and for tying down the cover in high winds. An elasticized bottom offers a snug fit. Universal sized cover to fit most types of motorcycles.

\$71⁰⁰

RG.BC0001BK

Check page 24-27 to see which R&G products are available for your bike.

SW-MOTECH Frame Sliders

offer rugged protection and a sporty, integrated design that looks great. SW-MOTECH sliders are constructed of CNC-milled PA6-MO aluminum alloy for high strength. Slider pads are made from high-performance plastic with UV-resistant slider pads that provide enhanced load bearing and sliding properties, as well as excellent abrasion and wear resistance for maximum protection.

- Replacement slider pads available.

In some cases fairing cut-outs are required. Templates and center punches are included to make installation precise and easy.

per pair

SW-MOTECH Mirror Wideners

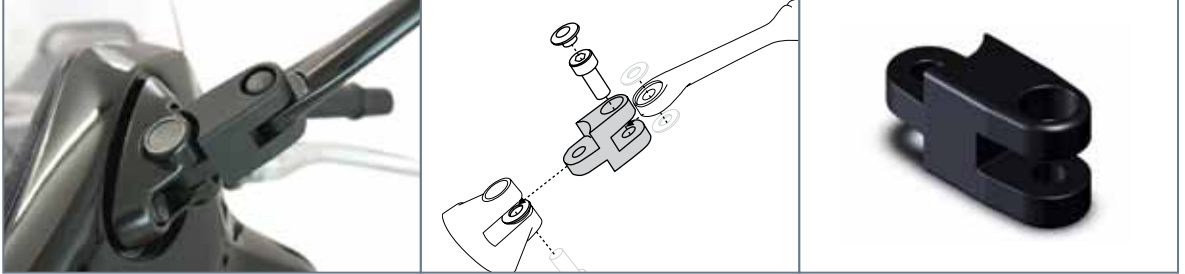

Are you tired of looking at your shoulders in your rearview mirrors? SW-MOTECH mirror wideners move your mirrors further out from your fairing and handlebars, providing a better view of traffic behind you.

SW-MOTECH uses several mirror widener shapes to provide solutions for the widest variety of motorcycles. Examples of the most common styles of mirror wideners are shown below. See the chart on the next page for your bike's application.

Most styles of mirror wideners are produced from CNC-milled billet aluminum. Profile Mirror Wideners are machined from a glass-fiber polyamide composite to provide a finish that matches original mirror mounts on most sport bikes. Mounting hardware is included.

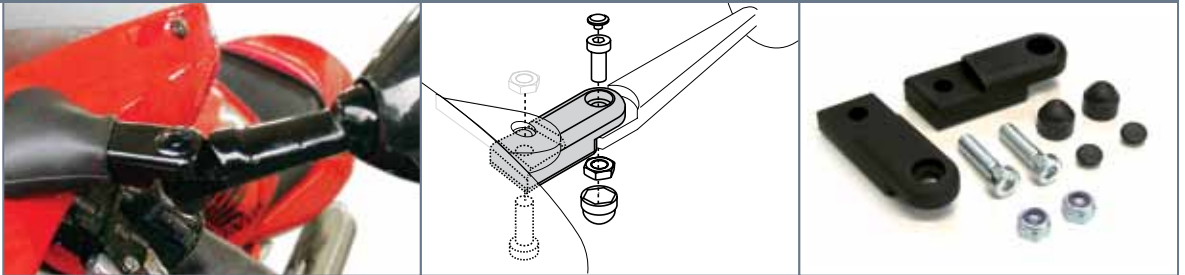

HINGE Style Mirror Widener

HINGE mirror wideners are mounted between the socket and the mirror arm. Hinge-style wideners extend the length of the mirror arm by 40mm and provide an additional hinge point, allowing for a greater range of mirror positions.

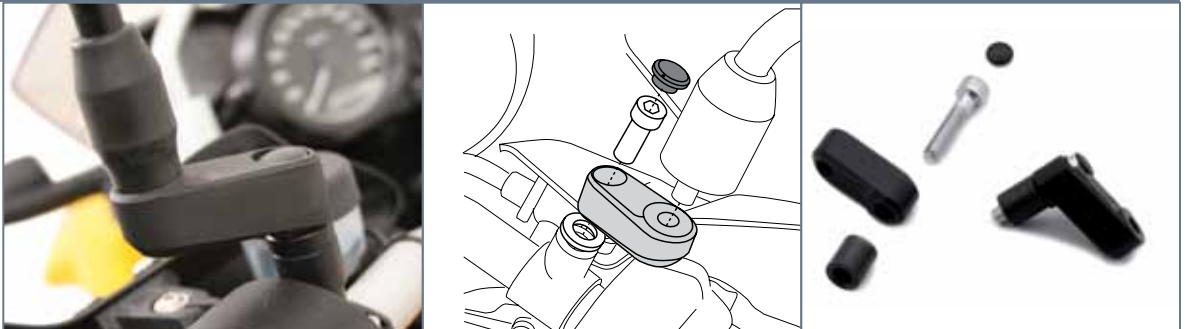

HINGE II Style Mirror Widener

HINGE II mirror wideners fit some Honda motorcycles, such as the NT650V Deauville. Hinge II wideners extend the length of the mirror arm by 40mm and provide an additional hinge point, allowing for a greater range of mirror positions.

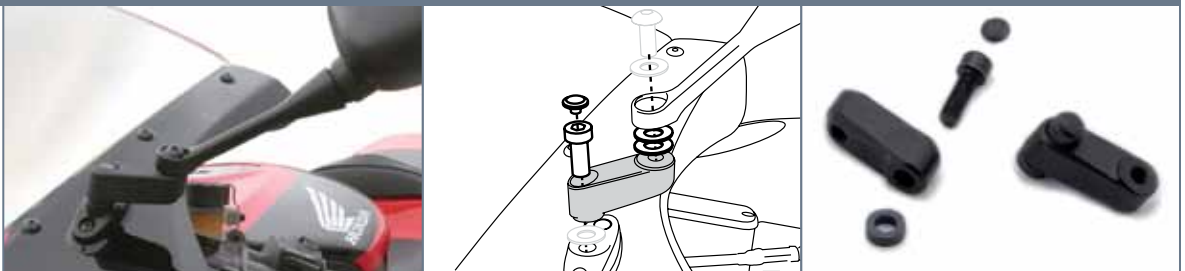

UNIVERSAL Style Mirror Widener

UNIVERSAL mirror wideners fit standard handlebars with M10 threaded mirror mount holes. These wideners extend the length of the mirror arm by 40mm and provide an additional hinge point, allowing for a greater range of mirror positions. The universal widener fits most enduro and naked sportbikes.

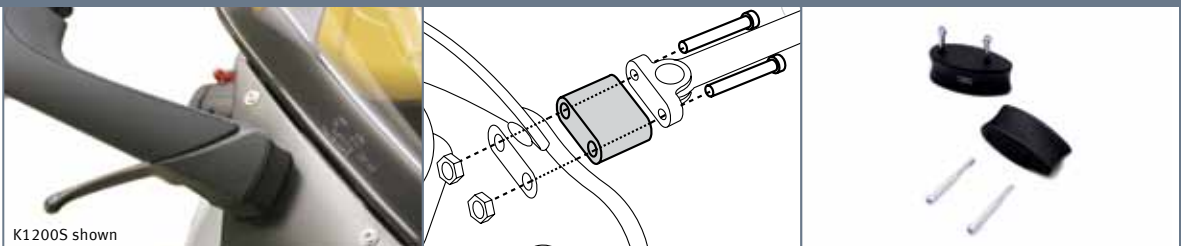

LINK Style Mirror Widener

LINK mirror extensions fit many newer Honda motorcycles with fairings, such as the CBR1000RR and extend the length of the mirror arm by 40mm. A greater range of motion is achieved by also adding a second pivot point.

PROFILE Style Mirror Widener

PROFILE mirror wideners fit directly to the original profile of the mirror base. This type of mirror widener fits many sport bikes with fairings. Height varies by bike model.

Adjustable Vario Footpegs

MFW's adjustable footpegs enhance comfort and add a touch of class to any motorcycle. This footpeg system provides 8 possible positions over a 360 degree range. Adjustability is accomplished through the use of a displacement arm attached to the bike-specific footpeg mount. Both footpeg mount and displacement arms have an indexed attachment surface for a secure installation. Once installed, it only takes a few minutes to switch between ultimate comfort for long treks and ultimate performance for strafing the twisties.

MFW footpeg kits are CNC-machined from billet aluminum and fit a wide range of motorcycles. All components are sold in pairs.

Starting At
\$161⁵⁰

per rider or passenger set

STEP 2

Choose your extension arm length

Extension arms lock into position every 45-degrees of rotation for a total of 8 possible footpeg positions.

STEP 1

Choose your bike-specific footpeg mount

The footpeg mount has 8 indexed rotational positions that the extension arm can lock into.

Find the proper rider or passenger footpeg mount for your bike on the next page.

50mm Extension Arm
(Passenger peg use only)
MFW.051.00.00.50

30mm Extension Arm
MFW.051.00.00.30

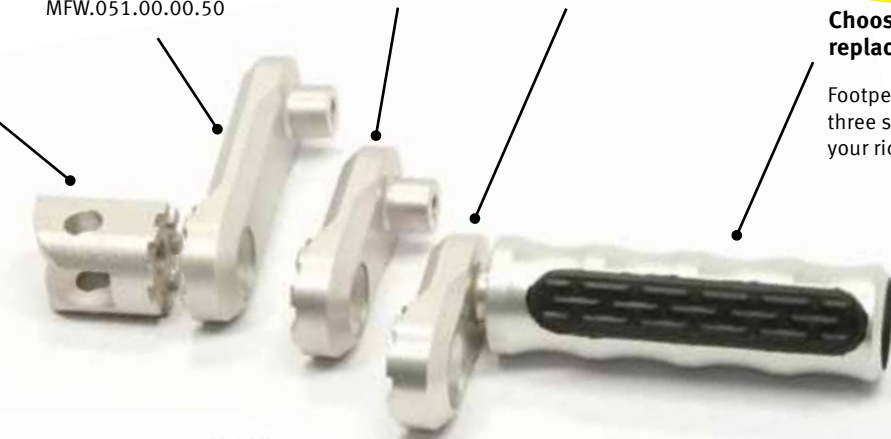

23mm Extension Arm
MFW.051.00.00.23

STEP 3

Choose your replacement peg

Footpegs come in three styles to suit your riding needs.

Scan here to watch the installation video.

Racing Pegs
MFW.050.00.01.00-1 silver
MFW.050.00.01.00-8 black

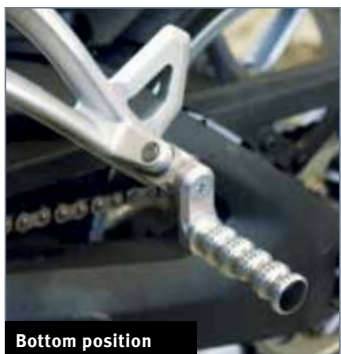

Super Grip Pegs
MFW.050.00.04.00-1 silver
MFW.050.00.04.00-8 black

Master Grip Pegs
MFW.050.00.03.00-1 silver
MFW.050.00.03.00-8 black

Ultimate adjustability: choose from any combination of 8 rotational positions and 3 displacement lengths to accommodate any rider

Rear position

Bottom position

45° bottom forward

BMW R1200GS

SW-MOTECH Convertible Footpegs

provide an extra-wide platform for enhanced comfort and grip, for both on and off-road riding! A single bolt allows you to remove the rubber pad for off-road riding and reinstall it for on-road riding. A second bolt allows you to raise or lower the footpeg by 15mm.

- Attaches to the original footpeg mount.
- Footpeg mounting kit is CNC-milled from high strength aluminum alloy.
- Convertible design is great for both street and off-road riding.
- Removable rubber pads reduce vibration for street riding.
- Toothed surface provides superior traction for off-road riding.
- 3.5" long x 2.25" wide, larger than most original footpegs for enhanced comfort and grip.
- Footpegs are made from high-grade, corrosion-resistant stainless steel.

Starting At
\$158⁹⁹

Attaches to original footpeg mount

Removable rubber pad reduces vibration during street riding

Large teeth provide maximum grip in slippery off road conditions

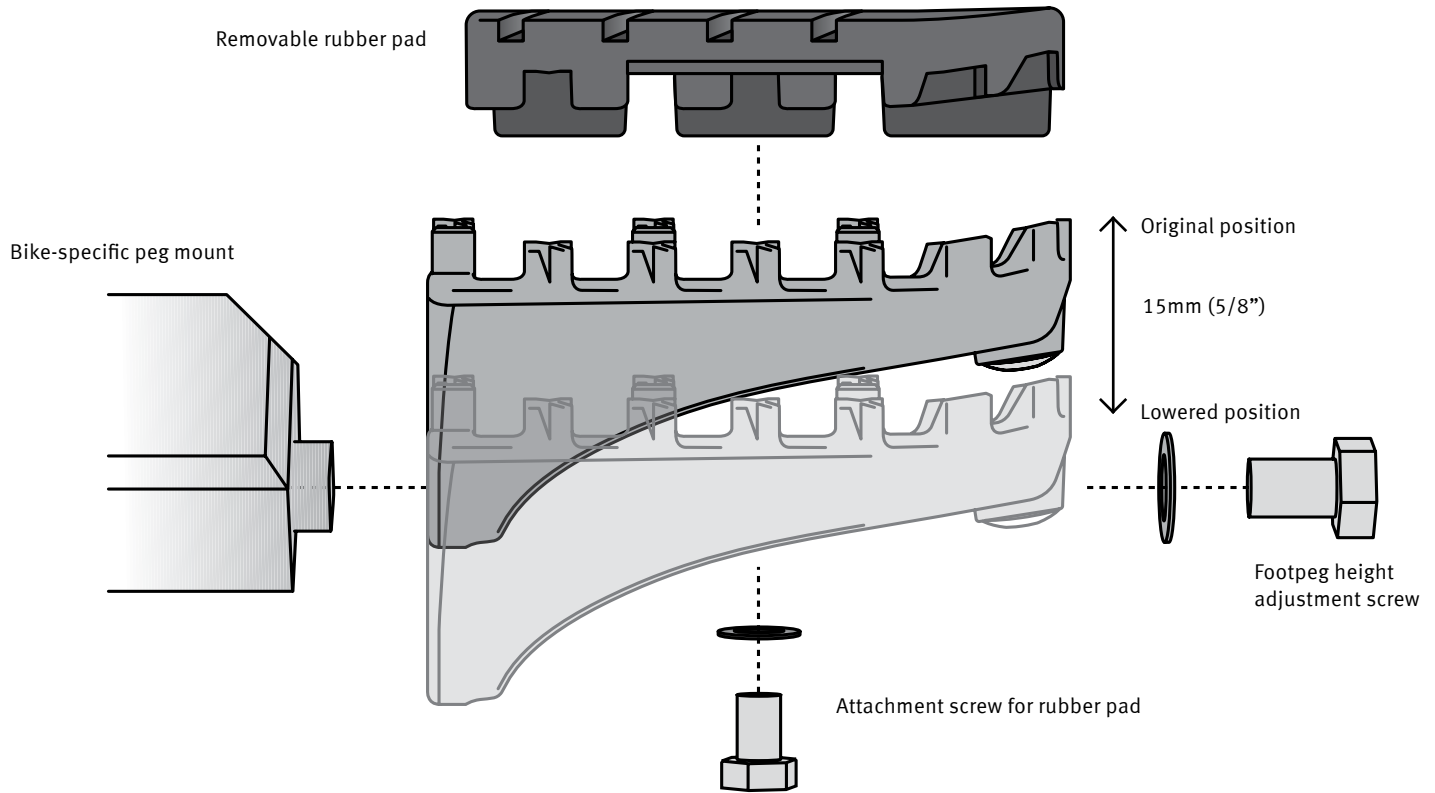

Wider is Better!

Rubber pad is removable with one bolt

Two footpeg mounting positions: Original or lowered by 15mm!

MRA Adjustable Windshields

Decades of aerodynamic screen development have gone into the design of the **X-creen** by MRA. Building on the success of the MRA VarioTouring screen design, the X-creen is MRA's most versatile screen to date with superior windscreen adjustability and performance. Adjustment requires no tools and the range of height and angle is infinite. No replacement windshield offers more air flow adjustability.
Available in clear or smoke gray.

NEW
Starting At
\$209⁹⁹

The X-creen spoiler is 14.1" wide x 5" tall and has 4.3 inches of vertical travel.

The spoiler's angle and height can be adjusted independently.

The Twisted BMW R1200GS

BMW G650GS (2012)

Triumph Tiger 800 (2011)

Suzuki DL650 V-Strom (2012)

MRA X-creen Adjustable Windshield Spoilers

MRA X-creen Spoilers attach directly to your bike's existing windshield. The included mounting kit fits almost any windshield, regardless of its curvature. The included extension arm adds the ability to raise and lower the spoiler's height by 2.15 inches (for a total of 4.3 inches of travel). You have the option of using the X-creen spoiler's single pivot mounting hinge, which allows you to pivot the angle of the X-creen, but not the height.

Choose from either **Bolt-on** or **Clamp-on** mounting options. Each kit includes a single and double pivot arms.

Bolt-On: The spoiler bolts directly to your original windshield. Installation requires drilling four 6mm-diameter holes in your windshield, but offers the cleanest looking installation. Includes spoiler, hinge system, and drill-on mounting hardware.

MRA.XCA.0 - Clear
MRA.XCA.1 - Smoke Gray

\$129⁹⁹

Clamp-On: The spoiler clamps onto your original windshield. Installation is easier, requiring no drilling, but the hardware is larger and more noticeable. Includes the spoiler, hinge system, and clamp-on mounting hardware.

MRA.XCC.0 - Clear
MRA.XCC.1 - Smoke Gray

\$149⁹⁹

Clamp-On part# MRA.XCC.1

Bolt-On part# MRA.XCA.1

VT - VarioTouringScreen

Starting At
\$155⁰⁰

The VarioTouringScreen is similar to the X-creen, but has a slightly smaller factory-installed adjustable spoiler at the top of the windscreen. The VarioTouring spoiler is approximately 3.5" tall and has a smaller range of adjustability than the X-creen. The rider can manually adjust the angle and height of the spoiler to redirect airflow to suit the current conditions. The spoiler's design reduces turbulence and buffeting for increased rider stamina. Provides wind-flow adjustability in a clean, compact design!

Available in clear or smoke gray.

MRA's VarioTouring Windscreens are adjustable to seven different positions to disperse the wind which helps diffuse air pressure and turbulence. The net effect is a reduction in rider fatigue

For a complete MRA application list, see page 42 or visit TwistedThrottle.com

BMW F800GS
MRA.07.017.VTM

R - Double Bubble RacingScreen

Starting At
\$95⁰⁰

Double Bubble RacingScreens

MRA has a long history of race screen development. The RacingScreen's raised center bubble takes wind pressure off the helmet and provides exceptional stability at racetrack speeds. Air vents have been added at the front edge of the screen to reduce the vacuum underneath the bubble and smooth out air flow.

Designed to generate ride stability at speed. Double bubble windshields decrease lift, applying a downward force to the front end of the motorcycle while reducing helmet buffeting.

The Twisted BMW S1000RR Project Bike

For a complete MRA application list, see page 42 or visit TwistedThrottle.com

T - TouringScreen

Starting At
\$110⁰⁰

2011 Yamaha Super Tenere

TouringScreens are similar in shape to your bike's original windscreen and are taller across the entire width of the windscreen, deflecting the wind over the rider and facilitating a relaxed drive, particularly on longer trips.

Extra-large "Arizona" TouringScreens are also available for some models.

Designed to enhance rideability. Think of the TouringScreen as an extension of the original screen. MRA evaluates and designs each screen for every application based on the unique ride characteristics and profile of the machine. The goal of the TouringScreen is to deflect wind pressure away from the rider, ensuring an easy and relaxing ride on longer trips.

For an application list, see page 42 or visit TwistedThrottle.com

RNB - RacingScreen for Naked Bikes

\$99⁹⁹

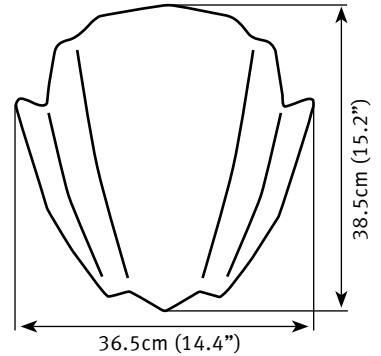

Mount kit sold separately

RacingScreens add style and function to any naked bike. With its racy design, the RacingScreen accentuates the visual appearance of your bike while offering excellent wind protection as you ride.

Available in smoke grey, black or clear. Requires MRA.HK or MRA.HKM28 mounting kits, sold separately **\$45.00 each**.

Honda CB1000R

See page 43 for a list of over 100 bikes that the RacingScreen fits!

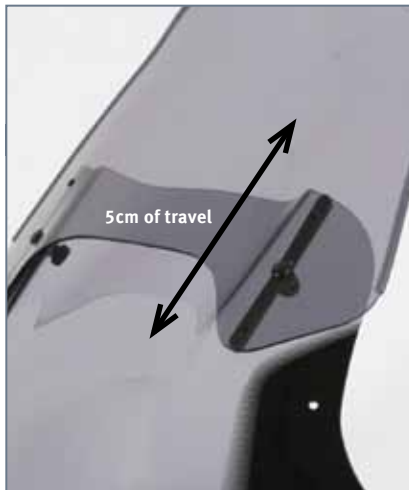

VNB - VarioScreen for Naked Bikes

\$169⁹⁹

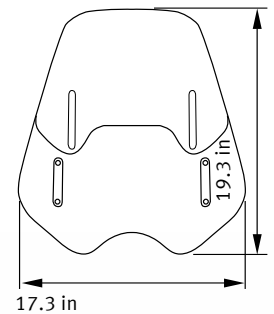

Mount kit sold separately

The VarioScreen for Naked Bikes is a two-part windshield. The upper shield is adjustable in height by 2 inches (5 cm). There is an inlet at the lower end of the upper shield that allows air to circulate and minimize turbulence. This shield offers the most adjustability and wind protection available in any MRA handlebar-mounted screen.

Available in smoke grey or clear. Requires MRA.HK or MRA.HKM28 mounting kits, sold separately **\$45.00 each**.

No tools are required to make height adjustments. Just twist the thumbscrews to loosen the sliders, adjust and re-tighten. The VarioScreen is designed to provide an air inlet at the base of the front section to allow a controlled flow of air behind the screen. This helps to reduce the air pressure and buffeting without creating additional drag and turbulence.

BMW R1200R

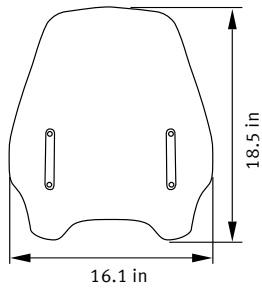

For a complete MRA application list, see page 43 or visit TwistedThrottle.com

MRA Screens for Naked Bikes

HI - HighwayShield

\$94.99

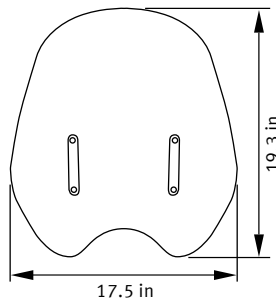

The striking design of this shield fits sporty naked bikes and roadsters. The size of the shield protects the entire upper part of the body up to the helmet from wind and weather. This shield is available in clear and smoke-gray.

CU - CustomShield

\$94.99

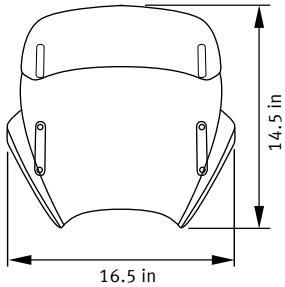

Similar in shape to the HighwayShield, the CustomShield's contours are considerably rounder and more suited to the appearance of cruisers and choppers. Available in clear and smoke-gray.

VTNB - VarioTouringScreen

\$149.99

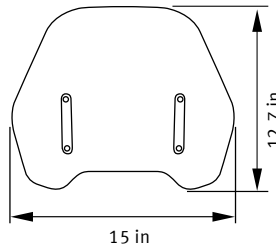

The VarioTouringScreen is a "small shield with a big effect". This compact shield's extra spoiler reduces airflow velocity approaching the helmet and upper body without generating turbulence. With 7 manually adjustable positions, it's easy to find an optimal position to suit your riding style. Available in clear and smoke-gray.

RO - RoadShield

\$94.99

The RoadShield is a small shield optimally suited for enduros and sporty naked bikes. The shield is deliberately made fairly wide for its height in order to avoid side turbulence. Available in clear and smoke-gray.

Handlebar Mounting Kits

\$45.00

MRA's HK handlebar mounting kit (**Part No. MRA.HK**) fits bikes with 7/8" or 1" diameter handlebars. For 28mm handlebars, use MRA's HKM28 (**Part No. MRA.HKM28**). For use with MRA naked bike windscreens (sold separately).

For a complete MRA application list, see page 42-43 or visit TwistedThrottle.com

MRA Windshield Color Options for Faired and Naked Bikes

Clear

Smoke Gray

Gloss Black (opaque)

Replacement Windshields for Faired Motorcycles and Scooters

Givi replacement windshields are generally offered in a single shape and color for each motorcycle model and year. Givi replacement windshields are designed to provide an improved aerodynamic profile, wind protection, and aesthetics.

Starting At
\$99⁹⁹

MEFO Dual-Sport Tires

MEFO's long-distance dual-sport tires are world renown for providing an impressive combination of off-road grip, on-road cornering performance, wet weather traction, and outlasting typical dual sport and knobby tires by thousands of miles.

Stone Master Rear

The Stone Master is the knobbyest street-legal tire available just about anywhere.

If you need street legal tires for commuting but can't resist careening down every muddy, rocky, sandy path you encounter, this is the tire for you. The stiff carcass handles very predictably in all conditions, on and off the road, and gets outstanding mileage for a knobby. The open block profile for the tire provides good grip on cross country tracks with stable handling on hard surfaces and pavement.

Rated to 105 mph (170 kmh).
DOT-approved.

Starting At
\$126⁵⁰

MX Master Front

The ideal knobby front tire for use with a Stone Master Rear Tire.

Giving good mileage, on- and off-road handling, and directional stability.

Rated to 112 mph (180 km h)
DOT-approved.

MX Master / Stone Master - Sizes		
Front	Rear	
90/90-21	120/90-17	4.10-18
3.00-21	4.60-17	110/100-18
80/100-21	130/80-17	120/90-18
	5.10-17	130/80-18
	140/80-17	140/80-18
	3.50-18	

Explorer

The long distance dual-sport tire.

Customers have reported to us that a set of Explorers can routinely take about 7,000-9,000 miles of use under the harsh adventure-touring conditions of Alaska. With secure, stable handling on dirt or wet pavement and high mileage performance, the Explorer has excellent all around versatility. Recommended for 50% street and 50% dirt riding. A great tire that will go anywhere and get you home!

Rated to 118mph (190 km h).
DOT-approved.

Starting At
\$126⁵⁰

Explorer - Sizes		
Front	Rear	
100/90-19	120/90-17	120/90-18

Azaro-ST

High mileage sports-touring motorcycles

- Specially designed for high performance and extended tire life.
- Engineered to cope with the loads of a sport-touring motorcycle.
- Superb all weather grip.
- Gives excellent mileage.

Azaro - Sizes
Front
110/80R19 59V

Storm 2 Ultra

High Mileage Sport Touring Tire

- An evolution of the award winning Storm-ST offering more mileage and grip.
- Multi-compound Super Rich Silica (SRS) treads give rear tires up to an extra 12% mileage.
- New technology is incorporated in the zero degree belting system and dynamic stresses within the carcass have been tuned.
- This new technology not only increases mechanical grip and gives improved traction, but also enhances handling and ride comfort.

A = Azaro X+ = with tube

We base our tire suggestions on publicly-available information on original rim and tire sizes. Always verify that any tire you install spins freely on your bike at all suspension positions without rubbing on any body or frame parts BEFORE riding. Twisted Throttle is not responsible for errors/omissions on this page or for any damage or injury subsequent to use of a suggested tire.

Stop & Go is the originator of the first complete roadside motorcycle tire repair kit and the brand most asked for by name - and with good reason. Pocket Tire Plugger Kits offer a lightweight, compact solution for roadside tire repairs. With innovative tire repair options for both tubed and tubeless tires, Stop & Go will get you on the road again in no time!

Pocket Tire Plugger Kit for Tubeless Tires

The revolutionary Power Plugger device allows you to easily install a mushroom-shaped rubber plug into any tubeless tire without removing the tire from the wheel. With a turn of the included hex wrench, the Power Plugger drives the plug into the offending hole. Once the plug is inserted, inflate the tire, and the plug expands under pressure to fill the punctured area. A firm pull on the plug stem with your pliers seats the mushroom head on the inner wall, allowing no air to escape. This technology insures maximum reliability while reducing your downtime in any situation, without the use of messy liquid glues!

Includes:

- Nozzle
- Tire Plugging Device
- Probe Tool
- Reamer/Rasp Tool
- Hex Wrench
- (15) Mushroom Plugs (5/16" diameter shaft x 3/4" length stem)
- Retractable Razor Knife
- Extra Zip Lock Bag
- Laminated Instructions
- Vinyl Zippered Pouch (7.5" x 3.5" x 1") is smaller than a 4 oz. bag of tasty beef jerky and fits under most motorcycle seats
- Weighs only 12 oz!

SNG.1000: **\$31.95**

Automatic Tire Inflation Kit

Each of these four threaded steel canisters contains 16 grams of 100% pure high velocity CO² gas. In just a few seconds, 8-9 lbs. of inflation is discharged into your tire by each canister. The re-usable loss-less valve adapter is solid brass and allows no leakage. ATVs and pocket bikes will generally use just one canister to fully inflate the tire. On a full-size sport or adventure-touring motorcycle tire, it will generally take all four canisters to reach 24 - 32 lbs. of pressure depending on tire size. This kit is for use on motorcycles, scooters, ATVs, golf carts, lawn mowers, and small utility tires.

Includes:

- (4) Steel Canisters containing 16 grams each of 100% pure high-velocity CO₂ gas
- Tire Valve Adapter with brass fittings
- Full Instructions
- Compact Vinyl Zippered Pouch (5" x 3.5" x 1") is about the size of a wallet
- Weighs only 10 oz!

SNG.1090: **\$21.95**

Tire Lever Set (Pair)

These heavy duty tire irons are ideal for emergency tire repair, but are also quite useful for fighting zombies. (If fighting vampires or werewolves, please call to inquire about our garlic-scented silver-plated tire levers.)

PT.TL.5C: **\$23.95**

Tubed Tire Patch Kit

If you have tubed tires, don't worry - Twisted Throttle hasn't forgotten about you. The Tubed Tire Patch Kit includes six patches in three different sizes, rubber cement, and an abrasive pad in a re-sealable zip-lock bag.

SNG.3003: **\$4.95**

Stop & Go Portable Mini-Air Compressor

The Stop & Go Portable Mini-Air Compressor measures only 4" x 2" x 6", making it possible to be carried on virtually any motorcycle, scooter or ATV. The built-in gauge allows you to observe the increased pressure with a reading up to 120 psi. It also comes with a built-in LED light letting you know that it is receiving power and helps you connect to the tire valve after dark. Your motorcycle tire will be fully inflated in less than 10 minutes. You'll also have the ability to fill inflatable balls & camping equipment.

Product Contents:

- Compressor unit 12V
- Built-in LED light
- Built-in gauge 0-120 psi.
- 4 inch tire valve hose
- 66 inch power cord
- 12 inch extension alligator clips
- 36 inch extension lighter adapter
- Sports needle adapter
- Inflatable adapter
- Complete instructions
- Rugged zippered carry case
- Measures 4" x 2" x 6"
- Weight: 14 oz.

SNG.RCP: **\$31.95**

Oxford DigiGauge

The only pressure gauge you'll ever need.

- Precision measuring up to 199.9 PSI/13.8 Bar in 0.1 PSI/BAR increments
- Reads a choice of pressure scales: PSI/BAR/kPa/KG-CM2
- Rotating dual valve system: Schrader and Presta
- Large backlit display for easy reading in the dark
- Bleeder valve button for pressure adjustment

OXF.OF294: **\$26.00**

Mini Foot Pump

Sometimes electricity isn't available and all you have is foot power. That's okay, because the Mini Foot Pump will inflate your tire almost as fast as an electric pump while giving you a bit of exercise.

The Mini Foot Pump comes with a nylon storage bag, standard Schrader valve, a steel needle inflator, a brass Presta adapter, and a plastic needle inflator for air mattresses. Features an aluminum cylinder construction with an O-ring equipped piston.

Mini Foot Pump Features:

- 0 to 140 PSI gauge
- Foot stand locks pump into compressed position, ensuring the smallest footprint possible - only 5.75" tall x 3.5" wide x 2-5/8" deep!
- Only 9 oz. in weight!

MFP.O: Closeout Price! **\$12.50**

Oxford Tool Kit

The Oxford tool kit has a usable selection of tools that fit easily under most motorcycle seats.

- 28 piece set
- Made from high quality carbon steel
- Carry case designed to fit under most rear seats (4" x 7" 1.25")

Components

- Needlenose pliers
- Wire snips
- Driver with philips, flathead, and metric socket bits
- Allen wrenches
- Mini screwdrivers

OXF.OF291: **\$19.99**

SW-MOTECH Bolt, Washer, and Screw Kits

You can't have enough metric hardware around!

STM.ST.680.10000: **\$49.99**

STM.ST.680.10100: **\$34.99**

Hex-socket Metric Screw Kit Grade 8.8 galvanized steel

100 pieces:
(50) 6mm screws and (25) 8mm screws 16 to 45mm long, (25) 10mm screws 20 to 45mm long.

Metric Nut and Washer Kit

80 assorted washers, plus 100 nuts:
(20) 6mm, (20) M6 self-locking, (20) 8mm, (20) 8mm self-locking, (10) 10mm, and (10) 10mm self-locking

interphone

Designed for motorcyclists who travel in pairs or in groups, Interphone's rider communication system has industry-leading features, including a bike-to-bike intercom, Bluetooth cell phone integration, and a Bluetooth stereo music player. Exceptional audio clarity and a wide volume range allow easy communication at highway speeds, even while wearing ear plugs. Best yet, Interphone's long-lasting battery life won't leave you in silent isolation on all-day rides.

Features common to F4 & F5 intercoms:

- A2DP stereo Bluetooth for HD audio
- Certified IP67 waterproof and dust-proof
- Provide clear audio up to 110 mph
- Bluetooth® wireless music/GPS/phone calls
- Automatic intercom muting during phone calls

What's in the Box?

F5 and F4 headset kits include all the parts necessary to set up two helmets (one of which is full face), so you can easily move the head unit between both helmets.

Each headset kit includes:

- 1 Bluetooth head unit.
- 1 boom mic and speakers for installation in a modular, open face, or full face helmet.
- 1 self-adhesive mic and speakers for permanent installation in a full face helmet.
- 2 quick release head unit mounts (1 self-adhesive, 1 clamp-on).
- Wall charger.

Need two headsets?

Save money and speed up installation by purchasing a Twin Kit. Twin Kits provide two factory-paired head units, two mic/speaker kits for full face helmets, and two mic/speaker kits for modular/open face/full face helmets.

F5 - Communication for up to six riders!

The F5 offers full-duplex communication for groups of up to 6 riders. Effective maximum range starts at 0.8 miles between a pair of riders and increases to 1.5 miles for a group of six riders. The full-duplex communication allows all six people to talk at once.

Features:

- Bluetooth® 3.0: longer range, better connection
- 11 hour talk time per charge
- 5 independent buttons: volume up, volume down, next track/station, last track/station, and function
- Head unit responds to voice commands
- Text-to-speech capability (listen to text messages)
- Automatic volume adjustment based on background noise
- DSP noise suppression system
- FM radio (8 station memory and station scan function)
- Backwards-compatible with F4 head units
- Includes one USB charger/sync cable

Additional USB adapter cable:

Dimensions: 3.5" L x 1.8" W x 0.75" D

F4 - Communication for a pair of riders

The F4 offers reliable, crystal-clear communication for a pair of riders at an excellent price.

Features:

- Bluetooth® technology
- Range of 0.3 miles
- 10 hour talk time per charge
- 3 independent buttons
- Can be paired to a single F4 or F5 head unit
- USB charging cable available (sold separately)

USB adapter cable:

GoPro HD HERO2 Motorsports Edition

GoPro cameras are the HD video camera of choice with all types of motorsports enthusiasts, track day riders, racers, off-road riders, and adventure tourers who want to share their exploits with friends and family. GoPro HD cameras feature a compact size, easy installation, excellent video quality, and the durability required for use on motorcycles.

\$299.99

GPR.CHDMH.002

The **NEW HD HERO2 Motorsports Edition** is the most advanced GoPro camera yet with the ability to capture 11 megapixel photos at a rate of 10 per sec. In addition to high-quality photos, it also produces professional 1080p video in a full 170° wide angle field of view.

Includes:

- Camera with submersible waterproof housing
- Rechargeable lithium-ion battery
- 5 adhesive mounts
- 1 suction mount
- 2 mounting feet
- 1 pivot arm
- USB cable

Features:

- 11 megapixel sensor
- 2x faster image processor
- 2x sharper glass lens
- Professional low light performance
- Full 170°, medium 127°, narrow 90° field of view in 1080p
- 120 fps WVGA, 60 fps 720p, 48 fps 960p, 30 fps 1080p video
- Full 170° and medium 127° field-of-view photos
- Ten 11-megapixel photos per second burst
- One 11-megapixel photo every 0.5 second time-lapse mode
- 3.5mm external stereo microphone input
- Records to SD memory cards up to 32GB capacity (not included), each of which can hold 4h 21m of 1080p video
- Waterproof housing approximately 2"x 2.5"x 2.75" excluding mounting feet.

Optional Accessories

LCD BacPac™

The LCD BacPac is a removable LCD screen for HD HERO and HD HERO2 cameras so you can easily aim the camera and watch the footage you've taken.

ALCDB.001 \$79.95

Battery BacPac™

The Battery BacPac charges your spare HD HERO and HD HERO2 batteries using the included mini-USB cable. The Battery BacPac can also act as a supplementary battery that plugs into the back of the camera to nearly double record times.

ABPAK.001 \$49.99

WiFi BacPac™ Remote

The Wi-Fi BacPac attaches to your HD HERO2 camera to enable wireless remote control of up to 50 HD HERO2 cameras via the waterproof Wi-Fi Remote or via a smart phone, tablet, or computer running the free GoPro App.

The Wi-Fi BacPac also supports live photo and video streaming to the web wherever Wi-Fi is present. Record one video stream to your HD HERO2's SD card while sending a second video stream via Wi-Fi to your smart-device, computer, or the Web.

The original HD HERO is compatible with the Wi-Fi BacPac and Wi-Fi Remote, however video streaming is not available.

AWIFI.001
Available Early 2012

Extras

Adhesive Mounts

Package includes five 3M™ adhesive mounts; curved or flat.

Curved adhesive mounts:
AACRV.001 \$19.99

Flat adhesive mounts:
AAFLT.001 \$19.99

Extra Battery

Use this lithium-ion rechargeable battery as a spare or a replacement in your HD HERO camera. Provides approximately 2.5 hrs of recording time.

AHDBT.001 \$19.99

Camera Mounts

Camera Adapter

Connects a GoPro camera to a standard tripod.

GTRA30 \$7.99

Handlebar or Crashbar Camera Mount Kit

Fits bars up to 1.25" diameter. Includes 3" extension arm. Requires either a flat adhesive mount or tripod adapter. Note: to use a flat adhesive mount you'll have to remove the threaded stud from the platform included with the mount kit.

RAM-B-149Z-C1U
\$33.18

ADAPTIV™ TECHNOLOGIES

TPX Radar & Laser Detector System 2.0

features a water, shock, and vibration resistant housing. It also includes a fused 12-volt wire harness for direct hookup to your motorcycle battery. TPX detectors have big buttons that are easy to use while wearing bulky motorcycle gloves, a backlit LCD screen that's readable while riding, as well as an LED visual alert so you don't have to take your eyes off the road. The TPX includes a 3.5mm auxiliary audio jack for integration with other audio or communication systems.

- Exceptional radar and laser detection
- Water resistant construction
- Shock and vibration resistant design
- Oversize, backlit control buttons
- Angled, backlit, daylight visible LCD
- LED visual alert included
- Compatible with other communication or audio systems
- Simple installation

TPX Systems have been performance certified by *Speed Measurement Laboratories, Inc.*, an independent laboratory that specializes in testing radar and laser detectors.

The included quick-release adapter plate is compatible with most RAM, Techmount, and SW-MOTEC motorcycle device mounts.

Optional Accessories	Part Number
Wireless Headset	TPX.A-02-01
Automotive mount with 12-volt power cord	TPX.A-05-03

Note: This item cannot be shipped to states and provinces where radar detectors are illegal.

TPX.A-01-01

GPS Units

GARMIN™

- ▶ **Garmin's zumo 220 Motorcycle GPS** is an affordable motorcycle-specific navigator that includes a rugged waterproof (IPX67) case. The zumo 220 features a bright, glove-friendly, 3.5" color touchscreen with information displayed in an easy-to-read format. It's easy on the eyes, whether you're riding in the bright midday sun or a moonless night. The compact zumo 220 motorcycle navigator mounts easily and uses spoken street names sent wirelessly to your Bluetooth®-enabled helmet or headset. Included Bluetooth® receiver enables hands-free calling or GPS headset use, but does NOT include A2DP stereo for streaming music. When held in the powered automotive mount, the GPS's integrated speakers and headset provide hands-free car use. Lane assist with junction view directs you to the preferred lane and shows realistic images of upcoming junctions.

What's in the Box:

- zumo GPS unit
- Pre-loaded City Navigator® NT for North America
- MapSource® City Navigator North America NT DVD (full unlock)
- Motorcycle handlebar mount
- Motorcycle power cable for direct battery connection
- Replaceable battery
- Automotive windshield suction cup mount
- Automotive power cable
- USB cable
- Dashboard disc
- Installation instructions

Garmin zumo 220
4.21"W x 3.35"H
010-00876-00

\$399.99

- ▶ **Garmin zumo 660 Motorcycle GPS**

You'll find all of the same features as the Garmin 220, plus a larger widescreen 4.3" touchscreen, A2DP stereo Bluetooth® for connecting to an iPod or MP3 music player, and a carrying case. Not compatible with Garmin's GXM™ 40 XM antenna.

\$649.99

Garmin Zumo 660
5.3"W x 3.3"H
010-00727-00

- ▶ **Garmin zumo 665 Motorcycle GPS**

The zumo 665 is the same as the zumo 660, but comes standard with the GXM™ 40 XM antenna with magnetic base. Simply add an XM subscription (not included) and receive real-time XM Radio®. Also includes a swanky dust cover for the motorcycle mount.

Garmin Zumo 665
5.3"W x 3.3"H
010-00727-05

\$799.99

Gadget Mounts allow you to attach your cell phone, iPod, XM Radio, or Radar Detector to your motorcycle. Choose from Techmount, SW-MOTECH and RAM mounts. Each offers a different way to mount your gadgets.

Starting At
\$49.95

Techmount Gadget Mounts

are our mid-priced gadget mounting solution. Techmount features a beautifully finished, CNC-machined appearance. These mounts are universal and can hold a device in the center, left, or right of your handlebar area.

Cradles and pouches attach by either directly bolting the cradle or pouch, adding a quick-release adapter, or using a 4-hole AMPS pattern-compatible mount.

For use with:

- All Bags-Connection device pockets (See page 59).
- All RAM, Garmin Zumo, and TomTom Rider device cradles (page 58).
- All other device cradles with an AMPS hole pattern.

Universal Stem Mount

Fits a wide range of Honda, Kawasaki, Suzuki and Yamaha bikes with hollow steering stem nuts.

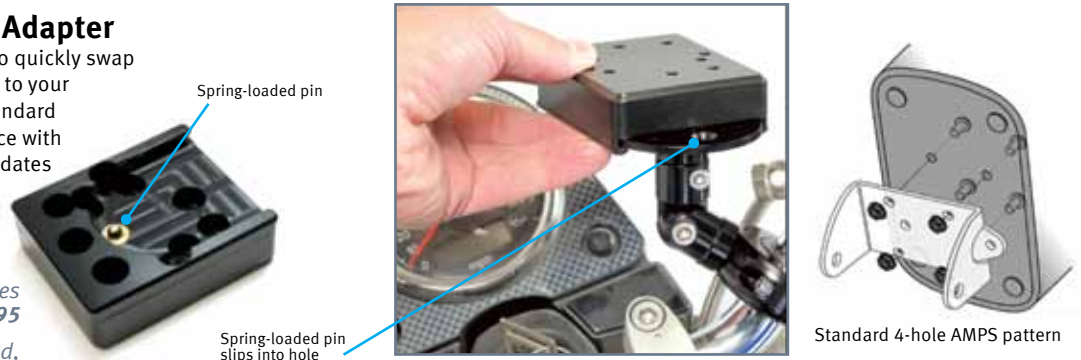

Universal Handlebar Mount

The Universal Handlebar Mount includes hardware that provides a proper fit on all standard handlebar diameters, including 7/8", 1", 1-1/8", and 1-1/4".

Techmount Quick-Change Adapter

The Quick-Change Adapter allows you to quickly swap the accessory cradle or pouch attached to your Techmount. It slides easily onto any standard Techmount top plate and locks into place with a spring-loaded locating pin. Accommodates any cradle or pouch with a 4-hole AMPS pattern (see pages 58-60).

TM.60003: for current round top plates **\$19.95**

TM.60003_OLD: for discontinued, rectangular top plates **\$14.95**

Mounts on handlebar control pinch bolts (clutch or brake side).

Available colors:
silver, black, chrome
(Control mounts and
mirror mounts black only)

Control Mount	10mm Mirror Mount	BMW Mirror Mount
<p>Replaces hand control pinch bolts.</p> <p>TM.31001</p>	<p>Threads into any 10mm x 1.25 standard or reverse threaded mirror hole.</p> <p>TM.31000</p>	<p>Fits into unused mirror holes, left or right side.</p> <p>TM.21004.B</p>

The Control Mount fits a wide range of Harley-Davidson and metric bikes (clutch or brake side). Replaces the two factory pinch bolts with new stainless bolts and spacers on the handlebar controls.

10mm Mirror Mounts are designed to thread into the unused mirror mounting holes found on many metric motorcycles. For use with 10mm x 1.25 standard (brake side) or reverse (clutch side) mirror holes.

The BMW mirror mount takes advantage of the unused BMW handlebar mirror mount holes. This item can be used on both left and right hand sides.

Quick-release Gadget Mounts & Crossbars

SW-MOTECH
BAGS-CONNECTION

Gadget Mounts

SW-MOTECH GPS Mounts are our premium gadget mounting solution, offering a secure fitment and the convenience of easy attachment and detachment. They also feature a vibration-damping mechanism to protect your GPS from the harmful vibes that dual-sport riders encounter.

For use with all Bags-Connection device pockets (see page 59), all RAM, Garmin Zumo, and TomTom Rider device cradles (see page 58), and all other device cradles with an AMPS hole pattern.

Available for 10mm - 12.5mm diameter handlebar crossbars (see below) and for bike-specific applications (see next page).

QUICK-LOCK Vibration-damped GPS Mounts for Handlebar Crossbars

QUICK-LOCK Vibration-damped GPS Mounts for 10mm - 12.5mm diameter handlebar crossbars.

GPS.00.646.10500.B Compatible with most handlebar crossbars, including the SW-MOTECH universal handlebar crossbar (see below) or any other 10mm – 12.5mm diameter crossbar. This includes the original handlebar crossbar on the BMW F650GS and G650GS, as well as the Kawasaki KLR650E (2008 & later).

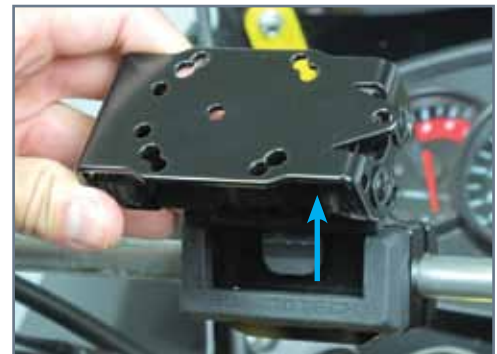

GPS.07.646.10700.B fits any 16mm - 16.5mm diameter crossbar, including the BMW R1200GS Adventure's original windscreen support bar.

To remove: Push the locking tab forward...

...lift mount upward...

...slide completely off. It takes only seconds!

Handlebar Crossbars

No crossbar? You can add one!

Handlebar crossbar

- 1/2" (12.4mm) diameter x 10-3/4" (273mm) long
- Fits most 7/8" (22mm) & 1-1/8" (28mm) diameter handlebars using the included clamps.
- Verified fit on Suzuki DL1000 and DL650 V-Strom, Triumph Tiger 1050, and many other adventure-touring bikes.
- Available in black or silver.

Suzuki DL650 (Wee-Strom) with Crossbar installed

Bike-specific QUICK-LOCK Vibration-damped GPS Mounts

Starting At
\$79.99

QUICK-LOCK, Vibration-damped GPS Mounts for specific motorcycles.

These mounts are designed for specific motorcycles to provide a custom fit that positions the device near the center of the handlebar, without obscuring the speedometer or other important instruments. Great for GPS devices and other small electronics. For use with all Bags-Connection device pockets (see page 59), all RAM, Garmin Zumo, and TomTom Rider device cradles (see page 58), and all other device cradles with an AMPS hole pattern.

Ultra fast attachment...

...and detachment of the GPS device.

RAM Mounts offer the widest range of device mounting options for GPS, video cameras, smart phones, and iPods at an affordable price. Choose from several available bases, four arm lengths, and the cradle that matches your device. No matter your needs, there is a RAM Mount solution available! For use with all Bags-Connection device pockets (see page 59) and many types of GPS device cradles (see page 58). You can also mount iPods, toll passes, and other devices using any cradle with a standard AMPS 4-hole pattern.

Gadget Mounts

GPS mounted on RAM Mounting System with Bags-Connection Device Pocket (see page 59).

Record video of your rides safely and securely.

There are three basic components in the RAM Mounting System: Bases, Arms, and Cradles.

What to Order:

STEP 1

Choose Your Base

RAM Mount Bases come in a wide variety of applications, so you will have no problem customizing how you want to display your devices. See next page for more information on RAM Bases.

STEP 2

Choose Your Arm

RAM Mount Arms come in four different lengths: 2", 3", 4.13", and 5.25". See page 58 for information on arms.

STEP 3

Choose Your Cradle

RAM Mount Cradles are available to hold many models of devices. See pages 58 - 60 for information on device cradles and pockets.

STEP 1 Choose Your Base

RAM bases connect directly to your handlebars, mirror mounts, fork stem, and other parts of your bike. They provide the “base” of your RAM mounting system.

Choose one of the bases below to start your RAM Mounting System.

Round flat base plate - 2.5" diameter base

RAM-B-202U \$7.17

Handlebar base with U-bolt for .5" - 1.25" bar

RAM-B-231ZU \$13.95

Base for 1/4" - 20 threaded hole

RAM-B-237U \$8.19

Base for 10mm unthreaded hole (fits most handlebar mirror mounts)

RAM-B-252U \$13.00

Base for 8mm unthreaded hole

RAM-B-272U \$12.95

Base for 6mm unthreaded hole

RAM-B-309-3U \$12.08

Clutch/brake control mount with U-bolt for 1-1/8", 1", 7/8", 3/4" and 0.5" bars

RAM-B-309-7U \$15.97

Offset ball on brake/clutch reservoir cover

Fits many BMW, Honda, Kawasaki, Suzuki, & Yamaha models.

RAM-B-346U \$23.30

Centered ball on brake/clutch reservoir cover

Fits K1200GT, K1200LT, K1200RS, R1150GS, & many other BMWs

RAM-B-345U \$23.81

Fork stem nut base

*RAM-B-342U \$16.59
Fits hollow steering stem nuts with 12, 14, 16, 18, 20 or 28mm Inside Diameter.*

Base for 10mm x 1.25 pitch threaded hole

Thread hole fits many handlebar mirror mounts.

RAM-B-349U \$10.85

Twist & Tilt base for 8mm or 10mm threaded hole

Fits standard handlebar mirror mounts.

Pivots & turns in many directions!

RAM-B-360U: \$22.37

Bike specific kit for Can-Am Spyder Roadster

RAM.30.807.10000 \$14.99

Base for 8mm threaded hole

RAM-B-367U \$11.62

Base for 6mm threaded hole

CPA.00.424.112 \$23.50

STEP 2 Choose Your Arm

Now that you have chosen what base best fits your bike, it is time to choose which length of arm to use. RAM arms connect the base to your device holder and can be pivoted in many directions.

2"
RAM-B-201U-A \$13.52

3"
RAM-B-201U \$13.31

5.25"
RAM-B-201U-C \$20.89

4.13"
Need even more versatility? Try the RAM Variable Swivel Arm.
RAP-B-200-12U \$18.64

Optional RAM Products

RAM-B-230U \$16.18

1" double ball arm connector

This optional double 1" rubber ball adapter allows you to attach two RAM extension arms together. The double ball connector is 1.75" when measured from ball center to ball center.

RAM-KNOB3LU \$22.63

Arm tightener with keyed lock

This optional locking knob replaces the original thumb screw in RAM extension arms. In the locked position, turning the knob will only tighten the extension arm screw. Compatible with 1" receptacles. Provides extra security when leaving electronic devices on your bike!

STEP 3 Choose Your Device Cradle

What do you plan on attaching to your bike? A GPS? Smart phone? iPhone? Or maybe you plan on filming your adventures with a camera? To complete your RAM Mounting System, purchase the cradle adapter below and the appropriate cradle or pocket from pages 58-60.

Step 3a: Buy a cradle adapter...

You need a RAM Cradle Adapter to hold your device cradle or pouch. The cradle adapter will attach to all cradles or pouches that use the industry standard AMPS hole pattern. If you want to mount a camera that uses the standard 1/4" x 20 camera thread, choose the Camera Mount Adapter instead of the Cradle Adapter.

Cradle Adapter
Required with all RAM device cradles. 2.25"x1.25" diamond base.

RAM-B-238U: \$6.76

OR

Camera Mount Adapter
Required for holding a camera 2.5" diameter with 1/4" x 20 threaded stud.

RAM-B-202AU: \$10.24

Step 3b: Choose a Device Cradle

Continue to the next page for more cradle options. →

Choose a GPS cradle from the list below:

Choose a cradle for your device	Part No:
Garmin Nuvi 750 760 770 780	RAM-HOL-GA26U

TomTom ONE 125, ONE 130 & ONE 130S Custom Cradle	RAM-HOL-TO7U

Starting at: \$6.40

STEP 3 Choose Your Device Cradle (continued)

RAM Spring-loaded Device Cradle

Our favorite adjustable/universal cradle for mounting smart phones. The top clamp is spring-loaded and is expandable to safely accommodate larger/taller phones. The side holders are manually adjusted.

Holds devices 4.75" - 6.25" tall x 2.25" - 3.25" wide.

Fits:

- Apple iPhone 3G, iPhone 3G S & iPhone 4
- Blackberry Bold & Storm 2
- HTC Droid Incredible, Evo 4G & G2
- Motorola Droid Pro, Droid 2 & Droid X
- Nokia N8, N900 & X6
- Samsung Galaxy S & Wave
- Windows Phone 7
- iPhones & Smart Phones with skins, sleeves, bumpers and cases

Mounts directly to any RAM-B-238 base, or any Techmount or SW-MOTECH GPS mount.

RAM-HOL-PD3U: **\$14.92**

HR Gripper universal device holder

Friction-fit cradle for mounting video iPods, Blackberrys, and other devices with shapes incompatible with the RAM Device Cradle. Mounts directly to any RAM-B-238 base, or any Techmount or SW-MOTECH GPS mount.

Large - Holds devices 2.4" to 3.6" wide and up to 4.1" tall.

TM.HR2531: **\$39.95**

Small - Holds devices 1.5" to 2.8" wide.

TM.HR1230: **\$34.95**

GPS Pockets and Dry Bags

GPS/PDA Pockets with Sun Visor

Weather-resistant, splash-proof GPS/PDA bags are perfect for navigation devices and smart phones. Bags feature a sturdy base for secure mounting and eyelets to pass-through electrical or audio cables. Mounts directly to a RAM-B-238 base, any Techmount, or any SW-MOTECH GPS mount. iPhone and Android touchscreens can be used through the clear window. The pocket's perimeter zipper makes accessing your device extremely fast, but also makes the pocket somewhat permeable to heavy downpours. If you need a 100% weatherproof solution and don't mind slower entry, use the roll-top GPS Dry Bag.

AMPS pattern fitment

Small Pocket

Fits Apple iPhones, Samsung Nexus, Motorola Atrix, HTC EVO 4G and similar.

Dimensions:
5.3" x 3.5" x 1" deep

BC.GPS.00.004.1000: **\$29.99**

Large Pocket

The large bag provides extra depth for thicker PDAs.

Dimensions:
5.7" x 3.9" x 1.8" deep

BC.GPS.00.002.1000: **\$42.99**

GPS Dry Bag

100% weatherproof (not submersible)
Dimensions: 5.3" x 3.5" x 1.2" deep

BC.GPS.00.005.1000: **\$34.99**

Medium Pocket

Fits Garmin Nuvi 30, 40, 1350, 3750, 2300LM, Tom Tom XXL 540TM, Go2435, Magellen 1424, and similar.

Dimensions:
5.7" x 3.7" x 1.4" deep

BC.GPS.00.003.1000: **\$34.99**

XL Pocket

The extra-large bag provides even more depth compared to the large bag. Fits some XM radios and GPS units.

Dimensions:
5.7" x 3.9" x 3.0" deep

BC.GPS.00.001.1000: **\$47.99**

GPS Dry Bag mounted on GPS mount (GPS mount sold separately).

EZ-Pass/Toll Pass Holder

Our motorcycle toll pass holder is designed specifically to allow motorcyclist the convenience of using the lanes designated "toll pass only" lanes. Made from lightweight and durable ABS resin, the toll pass holder mounts directly to tubular handlebars ranging from 1" to 1.5" diameter. Fits EZ Pass™, M-Tag™, IPASS™, Smart-Tag™, I-Zoom™ and FastLane™. The holder does not work with the FastTrak in CA or the SunPass in FL.

Can also be connected to a RAM-B-231ZU stainless steel U-bolt rail base (see page 57, sold separately).

JSN-011: **\$19.99**

EZ Pass Holder Adapter for 0.5" or smaller bars.
JSN-1/2 **\$3.00**

Waterproof iPhone Case for motorcycles

\$79⁹⁹

GPS.00.646.20000.B

Keep your iPhone protected, dry, and charged with the Biologic iPhone case.

Features:

- Waterproof case protects your iPhone from the elements. Tested to European water protection standard of IPX-4 (splashing water at all angles).
- Touchscreen is usable through the clear touch-sensitive screen membrane.
- “Wake/sleep” and “home” buttons can be used with the phone inside the case; volume buttons and ringer switch cannot be accessed inside the case.
- “Wake/sleep” and “home” buttons can be used with the phone inside the case; volume buttons and ringer switch cannot be accessed inside the case.
- Membrane-protected openings for the rear and front camera lenses let you take video or pictures while you ride.
- Sealed case allows weather-protected access to the stereo jack and dock connector for listening and charging on the go.
- The rotating base allows you to rotate the case into 24 different positions for easy vertical or horizontal viewing.
- The quick-release adapter has an AMPS hole pattern for easy attachment to all RAM, SW-MOTECH, or Techmount gadget mounts.

Waterproof hard case

With touch-sensitive clear membrane.

Includes 2 phone-specific silicone liners
Provides a secure fit and protection to your iPhone 3G, 3Gs, 4, and 4s

Quick-release Adapter

Equipped with AMPS mounting holes. Makes attachment to any gadget mount easy!

To attach your Biologic iPhone case to your bike:

Purchase one of the gadget mounts listed below (sold separately).

RAM Mounts

- Choose a BASE from page 57
- Choose an ARM from page 58
- Choose a RAM-B-238 CRADLE ADAPTER from page 58

Techmount

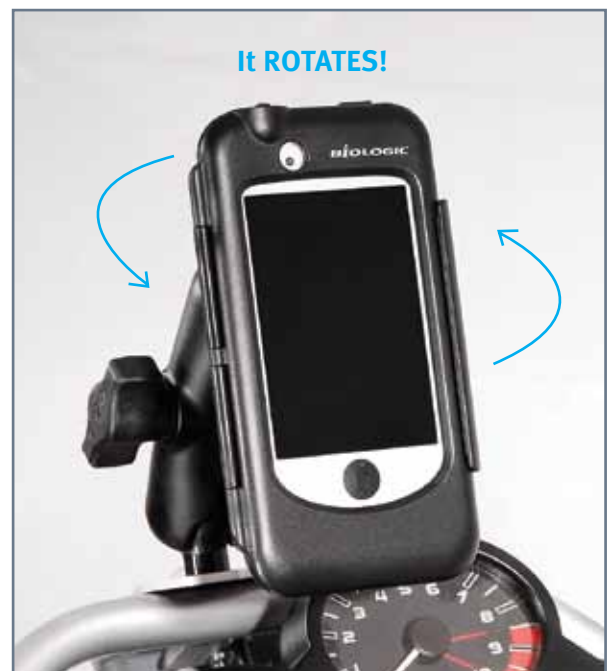

- Choose from mounts on page 53

SW-MOTECH GPS Mount

- Choose from mounts on page 54 - 55

Touch-sensitive membrane gives you full control over your iPhone when secured in the case.

iPhone case ROTATES to accommodate both vertical and horizontal viewing. The back of the waterproof hard case has a rotating base.

Our weatherproof auxiliary power sockets come with a fused battery hookup harness. Sockets can be flush-mounted or handlebar-mounted using the brackets shown below.

12-Volt Mini-Euro Socket (matches the size of BMW and Triumph 12-Volt power ports)

BC.POW.00.012.100: **\$14.99**

Convert cigarette socket into a USB charger

Tapp™ Lite USB Charger

This compact USB Charger is the weatherproof answer to charging most cell phones, GPS units, and MP3 players. It mounts easily to your handlebars or any flat or curved surface using the included self-adhesive mount. A tethered seal cap protects the charger from dust and water. The included fused battery hookup harness is diode protected against reverse polarity.

- Output Current: 1 amp
- Protection Rating: IP64 water wash-down protected when capped
- Cable length: 6ft (2 meters)

3BR.150.0034.01: **\$32.95**

Garmin Mini-USB Charging Cable

This cable allows you to charge your Garmin GPS unit through its mini USB port without forcing the device into the unusable "computer data sync" mode. Right angle adapter is 5" long; 3' coil cable can expand to 6' and ends in a convertible mini-Euro / cigarette plug.

BC.POW.00.003.100: **\$39.99**

Tapp™ Lite Charger USB with Mini-Euro Plug

This USB Charger is used on BMWs with a Mini-Euro socket. This unit charges USB accessories, including cell phones, most GPS units, MP3 players, and some digital cameras. A tethered seal cap protects the charger from dust and water. The Mini-Euro plug makes installation simple. Just attach the TAPP Lite using the Universal Mounting Bracket and plug the Mini-Euro Plug into your bike's power socket. Cable length: 6". Output current: 1 amp.

3BR.150.0042.06: **\$39.95**

Tapp™ Plus USB Charger for iPad

A complete solution designed to power the Apple iPad. Included is a fused wiring harness, a Universal Mounting System, and a USB connector with a power output of 2.1 amps. A tethered seal cap protects the charger from dust and water. Just hook directly to your battery or the Twisted Throttle Power Hub (see page 70), secure the USB connector to an appropriate surface, plug in your iPad and go! Cable length: 6ft (2 meters).

3BR.150.0053.01: **\$44.95**

Tankbag Wall Pass-through kit

The water-resistant pass-through kit enables you to run audio cables or a hydration system through your tankbag wall.

BC.POW.00.007.100: **\$14.99**

Hydration straw pass-through

Headphone pass-through

Denali D1 LED Lighting

Designed specifically for motorcycles.

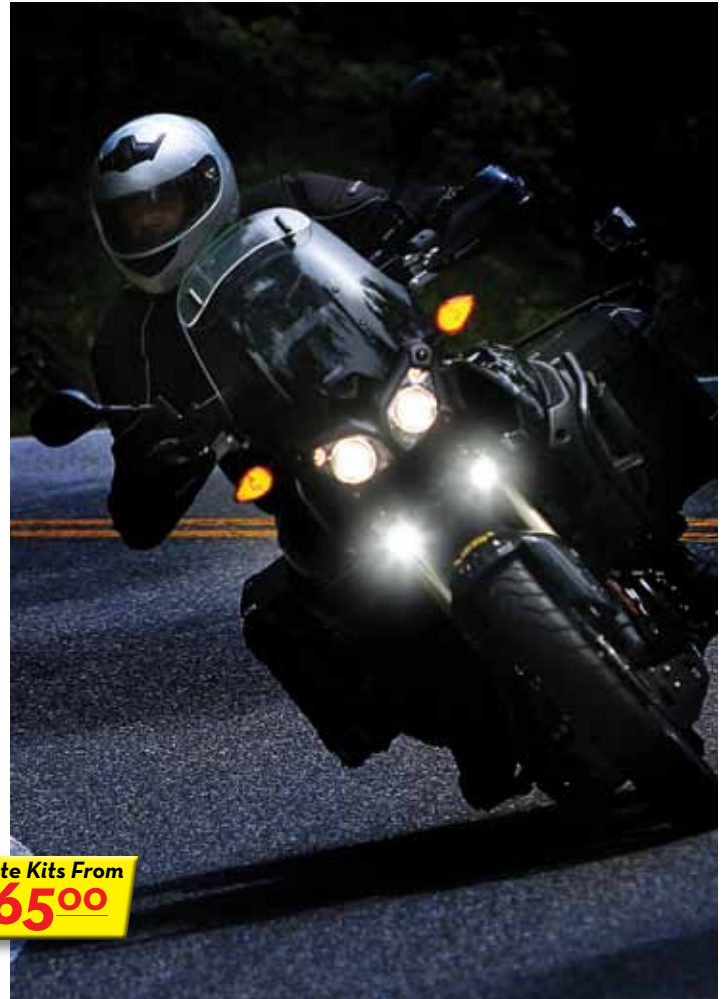

The tiny 2" cube-shaped lamps contain ultra-bright LEDs with an incredibly low electrical draw of 0.75 amps (10 watts). This means that for the first time, smaller bikes with weak electrical charging systems can use high output auxiliary lighting without draining the bike's battery! This enables larger bikes to run both heated clothing and auxiliary lighting simultaneously.

Denali LEDs are Bright! Despite their low power draw, Denali LEDs generate light output similar to a traditional 55-watt halogen lamp. Denali LEDs create a pure white light that maximizes brightness without losing distance, making them an ideal driving light!

Denali LEDs are Tough! Because LEDs don't have filaments like halogen bulbs, Denali LEDs can withstand much more shock, vibration, and other forms of abuse. The Denali D1s are constructed using a rugged aluminum housing that is impenetrable to dust and submersible up to 3 meters. The unbreakable face plate acts as a radiant heat sink to melt away ice in frigid conditions.

Denali LEDs Last a Long Time! Without ever being shut off Denali LEDs have an average lifespan of over 50,000 hours (6+ years).

Complete Kits From
\$265.00

TT-D1.KIT

Denali D1 LED Lights

Denali D1 Kit Includes:

- 2 x Denali D1 LED light pods
- Full wiring harness with relay and lighted switch (switch mount sold separately)
- 2 x universal 8mm mounting brackets
- 2 x multi-link connectors
- 2 x spot beam lenses (10 degree beam pattern)
- 2 x flood beam lenses (35 degree beam pattern)
- Installation instructions

Spot and flood lenses included

Easily switch from a spot lens to a fog lens by removing 4 screws.

Interlocking channel design (Denali D1)

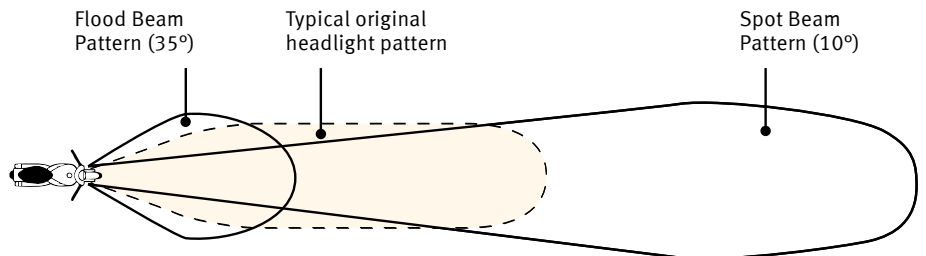

Attach up to 4 pods in a row or a grid using a single mounting point.

Denali Lighted on/off Switch

Denali LEDs can be wired to be switched by your high beam or turned on and off independently using our lighted on/off switch.

Comparison of spot beam and flood beam patterns to the beam pattern of a typical original headlight. Our Denali kit includes interchangeable spot lenses and flood lenses, so you can use Denali LEDs as driving lights with a narrow, focused beam or as wide-beam flood lights.

SCAN HERE for a video on Denali Lighting!

Denali D2 LED Lighting

When bright isn't bright enough, grab a set of Denali D2 LED lamps.

Denali D2s are even Brighter! Advances in super-swanky LED technology have increased the effective light output of our Denali system by nearly 70% without increasing the electrical power draw to your motorcycle. Consuming only 10 watts (0.83 amps at 12 volts DC) of power per lamp, it throws a blazing beam of light in front of you that is nearly twice as bright as the beam generated by the original D1.

Denali D2s are rugged! The Denali D2 is housed in a rugged waterproof 2" aluminum housing (submersible to 1 meter underwater).

Long lasting! The LED boasts an average life of over 50,000 hours (6+ years) without ever being shut off. Yup, we went overboard, it's what we do.

Denali D2s have the highest light output per watt of energy consumed of any light on the market.

Denali D2D Dual-intensity LED Lights

Too bright? Not with our dual-intensity feature! The Denali D2D can easily be wired to run at 50% brightness until you flick on your high beam switch, unleashing their phenomenal cosmic power at 100% intensity.

Denali D2 Kit Includes:

- 2 x Denali D2 LED Round Light Pods
- Wiring Harness with Dual-intensity Controller and lighted switch
- 2 x Universal 8mm mounting brackets
- Installation Instructions
- 2 x spot beam lenses (10 degree beam pattern)
- 2 x flood beam lenses (25 degree beam pattern)

OXFORD MAXIMISER 360T

SALE PRICE!

\$49⁹⁹

OXF.OF701US

Intelligent 12 volt battery charger won't leave you with a dead battery come spring!

Oxford's smart charger has multiple charging rates that analyze battery condition, check polarity and "float", and maintain a charge for battery longevity. Suitable for all 12-volt motorcycle, car, and truck batteries.

7 stage charging:

1. Tests battery connection polarity.
2. Analyzes your battery and diagnoses condition.
3. Gently recovers even heavily discharged batteries.
4. Quickly charges low batteries.
5. Checks voltage retention.
6. Monitors battery condition.
7. Maintains battery with a low current if the voltage drops below a set limit.

Features:

- Choose from 3 charge rates: MOTORCYCLE (600mA), CAR/TRUCK (3600mA) or BOOST (for AGM batteries and cold weather charging).
- Backlit LCD Display shows real-time charging rate. It shows both battery charge voltage and amperage.
- Battery Condition Adviser shows if the battery is able to hold charge or is in need of replacement.
- Includes alligator clips and a quick-release permanent battery hookup.
- Included wall bracket and extra long cables make for ease-of-use in your garage.

Included wall bracket makes storage easy

Battery Condition Indicator

Alligator clips and battery hookup included

OXF.OF951US

OXFORD OXIMISER 600

The Oxford Oximiser quickly charges any battery at 600mA/hour until full and maintains a gentle trickle charge to keep battery optimized. Quick-connect leads included for easy coupling to the Oximiser between rides. Extra-long cables make for ease-of-use in your garage.

- Plug-in battery care for 12-volt lead-acid batteries up to 30Ah.
- Suitable for all 12-volt battery types up to 30Ah including: gel, MF, and acid batteries.
- Gently recovers even heavily discharged batteries.
- Protected against short circuit.
- 2 year guarantee.

The Oximiser is suitable for all 12-volt motorcycle batteries, as well as for other applications such as quad-bikes, jet-skis, golf carts, cars, motor homes, caravans, commercial vehicles, and boats.

Kit comes complete with alligator clips to connect the charger, a connector which can be permanently fitted on any motorcycle or car, and a wall-mount holster bracket for easy storage.

NEBO Highbeam™ Rechargeable Flashlight

No Batteries!

The Highbeam is a compact, rechargeable 35 lumen LED flashlight that NEVER needs batteries. It's perfect for casting a soft light for short-distance campsite illumination or nighttime reading. The Highbeam charges in any 12-volt power socket (cigarette lighter) and glows red when charging. Just turn the bezel clockwise to activate the LED, and turn the bezel counter-clockwise to turn off. The Highbeam is constructed with anodized aircraft grade aluminum and is completely weatherproof.

Features

- High-power LED outputs 35 lumens of light (rated for 110,000+ hours of life).
- Anodized aircraft grade aluminum.
- Compact (measures 2.5" long x 0.75" diameter).

NEBO REDLINE® Tactical LED Flashlight

NEB.5610

\$3499

NEB.5608

\$3999

Quick-release mount attaches to .87" to 1.25" diameter handlebars.

shown actual size

High-end technology in a compact, extremely powerful light!

The NEBO REDLINE® is exceptionally bright with 220 lumens of pure white light! This is a long distance flashlight bordering on the power of a low power headlight... all in a relatively small package. To put the power of this flashlight in perspective, anything above 50 lumens within a 10 yard distance may cause temporary blindness. Included are 3 AAA batteries.

The flashlight has an adjustable wide angle lens that allows the REDLINE® to shift from a floodlight that illuminates everything within 20 yards, to a spotlight with a 150 yard range.

Features

- LED output is 220 lumens of light
- 0.428 lbs.
- 3 AAA batteries (included).
- 4 hours of runtime at 100% illumination, 8 hours of runtime at 50% illumination.
- Anodized aircraft grade aluminum, compact body design.
- 4.5" long x 1.25" diameter.
- Water-resistant.
- Magnetic base for hands-free lighting.
- Dual-function on-off button glows in the dark.
- **Hard Touch:** If you fully depress the button, the light will turn off between settings. The light will reset to the first setting (100% ON) after being off for 20 seconds.
- **Soft Touch:** If you press the button halfway with no click, you can cycle through the settings quickly without turning off the light between settings.

REDLINE® has 5 lighting modes:

- 100% white light (220 lumens).
- 50% white light (110 lumens).
- 10% white light (22 lumens).
- S.O.S. mode (220 lumens).
- Defensive strobe mode (220 lumens).

The REDLINE® Bike Light

has 3 lighting modes:

- 100% white light (220 lumens).
- 50% white light (110 lumens).
- Defensive Strobe Mode (220 lumens).

Triumph Street Triple (tapered bars) with REDLINE Bike Light

POWERHUB

Fused Power Distribution and Master Ground Block

Avoid the typical under-seat rat's-nest of wiring caused by hooking up multiple electronic devices directly to your battery!

The PowerHub allows you to safely connect up to 6 electronic devices (total simultaneous draw no more than 30 amps) to your motorcycle in a clean, workman-like manner. Each electronic device can be connected so that it is switched on or off automatically with the vehicle, or powered constantly. Each 10-amp circuit is fused and accepts standard mini blade fuses available in any auto parts department. Suitable for both CANbus and standard electrical wiring. Small and easy to install.

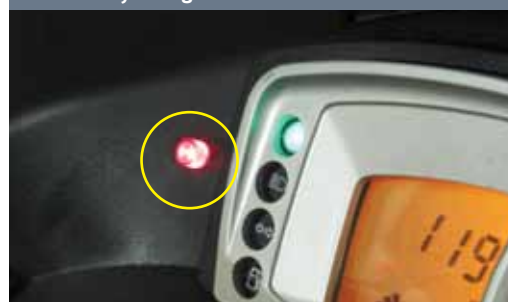

\$83⁹⁹

ELC.00.10000

Features:

- 3.3" x 2.4" x 1.4" (about the size of a deck of cards).
- 2 slots for storing spare fuses.
- 6 fused circuits (each rated at 10 amps).
- Detailed installation instructions.
- Each circuit can be switched or un-switched.
- Trigger wire for "switched" side is diode protected for CANbus bikes.

LED Battery Voltage Monitor

The smallest and simplest monitoring device available! This flush mount kit includes a 1/4" diameter LED that displays voltage levels using colors in a stoplight-style arrangement: **RED** - less than 11.5 volts, **AMBER** - 11.9 to 11.5 volts **GREEN** - 12 volts and up. Fuse protection, wiring, connector assortment and complete instructions are included. Simple 2 wire installation. Drilling a single .25" diameter hole is required to install on any flat surface near your instrument panel.

EC.04101: **\$29.95**

Backlit Thermometer, Voltmeter, and Ammeter

ChargeGuard Multi-Mode Display

ChargeGuard display is a digital multi-meter with 4 modes of display:

- Voltmeter (volts)
- Ampere (amps)
- Ambient temperature (°F or °C)
- Ice Alert

The ChargeGuard is designed for all motorcycles with a 12-volt battery and installation is a simple plug-and-play operation.

Dimensions:
2.35" L x 2.15" H x 1" D

\$149⁹⁵

KIS.CG.25

CANbus Electrical Connector for BMW, Ducati, & Triumph Motorcycles

Many late model European motorcycles use "CANbus" electrical systems that can malfunction if add-on electrical accessories are spliced directly into the wiring harness. Our CANbus adapter provides a "hot" trigger wire, which activates a relay to safely power electrical accessories (driving lights, accessory fuse blocks, GPS, heated grips, etc.) when such motorcycles are turned on. The adapter simply plugs into the bike's existing 194 headlight marker bulb socket. Combined with our PowerHub, the CANbus connector provides a complete solution for installing electrical accessories on CANbus motorcycles.

EC.02350: **\$19.95**

Stebel Dual-tone 139db Nautilus Air Horn

Be Heard!

This Dual-Tone 139dB 12-volt Air Horn is loud enough to convince other drivers that there's a derailed freight train barreling down on them. With the Stebel air horn, there's no doubt that distracted drivers will hear you.

Don't press the horn button in the garage, it hurts! At 139dB it can be heard for almost 3 city blocks! YEEEEOWWWW! Our warehouse manager affectionately calls these horns "People Deafeners". When we first tested the horn outside of our facility, everyone in the warehouse (as well as two of our neighbors) came outside to see what was going on. These horns are really freakin' LOUD!

Perceived volume doubles for every 3 points you go up in the decibel scale. At 139dB, the Stebel air horn is 800% louder than the more expensive 130dB FIAMM Freeway Blaster.

Includes a single 8mm mounting bolt with nut and a relay for providing a direct, high current attachment to the motorcycle's battery. No wires, fuses, or mounting brackets are included.

Specifications:

- Sound Output: 139 dB
- Current Draw: 18 Amp
- Dimensions: 5.9" (150mm) x 4.4" (112mm) x 3.7" (95 mm)
- Reaction time: less than 90 milliseconds

Starting At
\$55⁹⁹
11135

Plug-N-Play Wiring Harness for Stebel Nautilus Air Horn

Our pre-assembled wiring harness makes horn installation fast and easy! No stripping, splicing, cutting, crimping, or trips to the hardware store required! Just clip one lead to your original horn trigger wire, one lead to battery ground, one fused lead to battery positive, one high current lead to the Stebel Horn, and plug the harness into the Stebel's included relay. Includes one 30-amp ATC fuse and assembly instructions.

TT-0002:
\$29.99

Universal Horn Mounting Brackets

Our heavy duty accessory mounts come in many shapes and sizes!

These mounting brackets can also be used to mount other small items (such as auxiliary headlights) on your bike. All mounts have a 3/8" (10mm) diameter mounting hole.

Straight & L-brackets

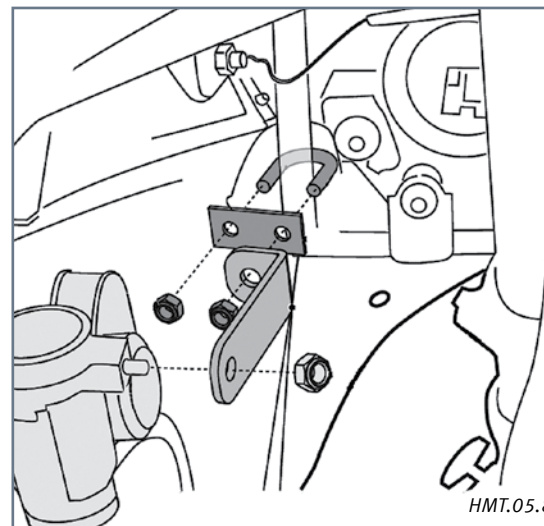

Want to know how to mount the Stebel horn on your bike? SCAN HERE and learn how.

Part No.	Shape	Size
TWT-00-013-003	Straight	3" (2" center-to-center)
TWT-00-013-004	Straight	4" (3" center-to-center)
TWT-00-013-006	Straight	6" (5" center-to-center)
TWT-00-013-001	L-bracket	0.6" x 2.55" center-to-bend

Bike-specific Horn Mounting Brackets

Kawasaki KLR 650E, 08' & later	TWT.HMT.08.004.100	L-bracket	N/A
Suzuki V-Strom DL650, DL1000	HMT.005.821.10000	Kit	17mm - 19mm

Designed to fit the left upright of the tubular fairing stay on the Suzuki DL650 & DL1000. The fairing does not need to be removed to mount this bracket. This horn mount can be "re-purposed" to fit any round bar between 17mm - 19mm.

HMT.05.821.10000: **\$17.50**

Gerbing's Microwire® technology is thinner, lighter, stronger and more durable than copper wiring. And it heats up in just 10% of the time!

Gerbing's Microwire® technology was developed in response to a Department of Defense contract for heated clothing to be used by Special Ops Forces. The wire used consists of hundreds of microscopic stainless steel strands that are about 1/4 the thickness of a human hair and wrapped in a thin Teflon coating. These wires are flexible, yet exceptionally durable. This results in a rugged garment that heats instantly.

Electrically-heated jacket liners, gloves and socks plug into a Gerbing temperature controller that is hooked directly to your motorcycle's battery. Stay warm on chilly winter nights with this marvel of modern motorcycling!

All Gerbing's heated clothing has a lifetime warranty on heating elements! Gerbing's garments are capable of maintaining a surface temperature of 135°F (+/- 5°F) at 32°F.

Microwire® Heated Jacket Liner

Extend your riding season!

GHC.JKLN: **\$199.95**

Microwire® Socks

The ultimate comfort for your feet.

GHC.SKLN: **\$89.95**

Microwire® Gloves Liners

Warm hands inside your existing non-insulated riding gloves.

Combine these Glove Liners with Macna waterproof gloves for maximum comfort and versatility. Your hands will remain dry, warm, and protected. See page 79 for Macna gloves.

GHC.GLLN: **\$79.95**

T5 Microwire® Gloves

Designed for the serious rider.

GHC.T5: **\$169.95**

Gloves can be operated while connected to Gerbing's Jacket Liner, or directly connected to the bike using the supplied Y-harness.

How does Gerbing's heated clothing work?

Gerbing's Portable Temp Controllers

- The single controller provides one temperature setting for all garments .
- The dual controller provides two separate controls for two different garments, such as for gloves and jacket liner, for the same person.
- Wires safe for all weather conditions.
- Velcro® attachment or optional belt clip cases.

GHC.TCLCD (dual)
GHC.TCLCS (single)

Baryl™ Rack Cable Mount

The Baryl™ Rack universal mounting bracket is useful for mounting your Gerbing power lead. The cable mount is designed to conform to a variety of surfaces and shapes; from round handle bars to flat body panels and everything in between. Securing your power lead with this mount allows no-fuss one-handed plug-in of your Gerbing controller. The cable saddle rotates on the base with detents every 15° to allow for optimum cable angles. Made of UV resistant Nylon.

For mini-Euro socket or flush-mount wiring options, visit TwistedThrottle.com!

Oxford HotHands Heated Overgrips

- Easy-to-attach in winter and easy-to-remove on warmer days, Oxford HotHands make frozen hands a thing of the past.
- Heated grip covers attach with Velcro.
- Connects directly to battery.
- Switch with LED warning light included.
- Very low battery drain.
- 2 year warranty.

OXF.OF694: **\$54.95**

Oxford Heated Grips

Designed for 7/8" diameter handlebars with 4.75" to 4.9" open-ended grips, these are the ultimate heated grips, capable of maintaining up to 131° F (55° C).

Waterproof controller features:

- 5 power settings (100%, 75%, 40%, 30%, off).
- LED indicates current power setting.
- Auto-off when bike is turned off to prevent accidental battery drainage.
- Includes bracket for mounting controller on left-side handlebar control mount bolts (pre-drilled for two 6mm mounting screws spaced 31mm-35mm apart on center).
- Control size: 56mm (2.2") wide x 54mm (2.1") tall x 20mm (0.8") thick.
- Sport and Touring Controller features 5 settings.
- Cruiser Controller features a rotating control knob.

Includes high temperature epoxy and a fused, pre-terminated wiring harness with two 1.4" (6mm) ring terminals for connecting to a 12-volt battery.

Macna Jackets, Pants, and Gloves

Macna jackets, pants, and gloves are made to withstand the demands of serious motorcycle riders. Macna is known for their innovative features, attention to detail, excellent fit, superior comfort, stellar protection, and safety features that stand out from the crowd.

Build Quality

Innovative use of high-tech materials sets Macna garments apart from the crowd:

- Less bulk compared to other brands.
- Sensible zipper locations that are easy to use.
- Smart construction that ensures durability.

Materials used:

- **C-touch** is a Polyamide 500d material that has a medium abrasion resistance with a cotton look and feel.
- **R-tech** is a Polyamide 600d with medium-high abrasion resistance.
- **Durylon** is a Polyamide with Polyester material with high abrasion resistance.
- **Dynax** is a Polyamide 420d with high abrasion resistance.

Comfort

Macna jackets features a 3-layer liner system with an easy to install, independently detachable waterproof, and breathable membrane and thermal liner. Macna pants have a similar detachable membrane and thermal liner system.

Inner liners connect to the outer shell without snaps or dangling straps. This creates a smooth sleeve entrance so you can wear the gloves inside the sleeve to prevent water from running into the gloves.

Ventilation

Ample ventilation is a key component of well-built riding gear. Macna pants feature thigh vents and the jackets feature arm and chest vents.

Protection

You'll find CE-approved shoulder and elbow protection in all Macna jackets, and CE-approved knee protection in Macna pants. CE armor upgrades are available for most jackets to replace the standard back and hip foam protectors (see page 75) with CE Level 2 armor.

Visibility

Macna jackets feature laminated reflective material to illuminate the front, back, and sides of the jacket. For extra conspicuity, all jackets are ready to accept a high-viz vest that zips onto the jacket and does not interfere with access to pockets or zippers (see page 75).

Convenience

You'll really like the convenience features found on Macna jackets, including a hanger loop, adjustable arm straps, easy-to-use zipper tabs, and zippers for connecting the jackets to pants.

Please note: Macna apparel is Euro sized. Order one size larger than the typical U.S. size you wear. Call or email our gear experts if you have sizing questions.

Oasis Jacket

Lunar Jacket

Features of Macna Jackets and Pants:

Superfabric protectors are a rugged textured material that provides excellent abrasion protection and a high-tech look.

CE-approved knee, shoulder and elbow protectors provide impact protection. Knee protectors are adjustable to ensure proper position for safety and comfort.

Raintex waterproof and breathable membrane and **thermal liner** combined with the outer material create a highly protective shell.

“Easy Cuff” system uses an exterior zipper to easily connect the inner jacket and pant liners to the outer shell.

Summer Comfort Control System quickly transforms the men’s Geo and women’s Lunar jackets into a warm-weather garment. Simply remove the collar panel to reveal the high-tech **3D mesh** for maximum airflow.

Zippered Vents are located on the sleeves, chest, and in some cases, the upper back for increased airflow. Pants have vent panels in the thigh and lower leg.

Integrated heavy duty hang loop on the outside of the neck is stitched and bolted securely.

Grip Strips at the edge of pocket flaps allow easy access even when wearing heavy gloves.

Back pocket provides a convenient place to store liners. **Cinch straps** at the waist allow a custom fit.

Side Eye reflective graphics provide extra conspicuity. The Side Eye material is laminated for an integrated, smooth look and feel.

Armor Upgrade

Upgrade the standard hip and back protection with CE Level 2 approved armor.

- Visco-elastic foam with outstanding shock absorption values.
- Meets stringent European Standard EN 1621-2, Level 2.
- Anatomically shaped for maximum comfort.
- Washable.

Gerbings Electrically Heated Glove Liners

Gerbings electrically heated glove liners, in combination with Macna waterproof gloves, provide maximum comfort and versatility. Your hands will remain dry, warm, and protected. See page 72 for Gerbings products.

GHC.GLLN: **\$79.95**

Macna Gloves

Macna gloves have many features that ensure excellent comfort and protection.

30 degree wrist strap allows enhanced comfort and free wrist movement.

The external hard knuckle protector spreads the force of impact using a cushion of air.

Curved ErgoThumb and ScreenCleaner integrated rubber squeeze.

Some Macna gloves feature the **OutDry** waterproof membrane that is laminated directly inside the outer shell to keep the glove dry and light.

Note: Macna gloves are designed so that the gauntlets are worn within the jacket sleeves. This prevents rain from pouring down the sleeve and into the glove while riding.

Steel Topracks are a rugged, inexpensive way to mount your hard or soft luggage, or even a RotopaX fuel tank. Steel Racks are bike-specific and are shaped to follow the lines of your bike.

Steel Racks are a permanently-mounted flat luggage rack with pre-drilled holes for mounting a variety of cargo carriers. There are also plenty of tie-down slots for strapping soft luggage to your bike. An expanding rack is available that creates a large, sturdy surface for larger luggage items (See Steel Expansion Rack below).

One of the great things about the Steel Rack is its versatility. Steel Racks accept TraX, Pelican, Coocase, or Givi topcases, as well as RotopaX auxiliary fuel tanks with additional adapter hardware. You can even mount certain tank-bags that have the Quick-Lock tankring system. Adapter hardware is sold separately.

Steel Topracks are bike-specific. See pages 156 - 227 to find a Steel Toprack that fits your motorcycle.

Topcase adapter sold separately

GPT.04.439.20001.B
KTM 690 SMC

Steel Expansion Rack

The Steel Expansion Rack turns the Steel Toprack into two racks in one. Want to carry a large duffel or dry bag? No problem, just loosen the four securing bolts and slide the wings outward. Tighten the bolts and you've got a wide and sturdy surface for the most challenging cargo.

- Can be adjusted and locked to create any width between 12" and 16.5" wide.
- Use it to attach soft luggage to a SW-MOTECH Steel Toprack.
- Easy access to an expanded Steel Toprack platform.
- Retract for a clean look.
- Secure 4 bolt installation.

GPA.00.804.10000.B: \$54.99

Additional adapter hardware allows you to mount your TraX, Pelican, Coocase, Givi topcases, or RotopaX auxiliary fuel tanks to a Steel Toprack.

QUICK-LOCK EVO Sidecarriers for Sidecases

QUICK-LOCK EVO Sidecarriers are used to mount Aero, TraX, Pelican, Hepco & Becker, Shad, Krauser, or Givi sidecases (adapters sold separately). When not using your sidecases, the sidecarriers can be removed in seconds to retain the stock appearance.

Features:

- Removable, narrow luggage carrier for many types of side luggage.
- Sidecarrier attaches and detaches from the bike in seconds.
- Robust, tubular mild steel construction.
- Sidecarriers can be used to prevent soft saddlebags from getting burned on your exhaust or caught on your rear wheel.
- Optional keyed locking QUICK-LOCK fasteners are available to prevent removal of sidecarriers.
- Hard-bolt kits available for permanent, rigid and strong mounting to withstand rough off-road riding.

Lock your EVO Sidecarrier to the motorcycle

Bottle Mount & Fuel Bottle

Add a Bottle Mount to the interior of your EVO Sidecarrier using our Sidecarrier Accessory Mounting Kit .

Basic Bottle Mount

This bottle mount bolts permanently to the outside of any flat-sided surface, including sidecases, and can be used to carry our MSR 30oz Fuel Bottle and Twisted Throttle 30 oz Water Bottle. It can hold any bottle with a height of 8" to 12" and a diameter of 2.5" to 4". Velcro straps and a top-end bungee cord are provided for added security.

Bottle mount includes hardware for attachment to a flat sidecase. Installation on an EVO Sidecarrier requires the Sidecarrier Accessory Mounting Kit (sold separately).

BMT.00.805.10000.B: **\$29.99**

See page 100 for fuel and water bottles.

Storage Tube with Flush Mount Kit

This storage tube attaches directly to the outside of any flat-sided sidecase and can be used to carry our MSR 30 oz Fuel Bottle & Twisted Throttle Water Bottle, as well as any other gear that can fit inside of it. It has an internal diameter of 3.25" and an internal height of 11.5".

DJA.67670.100: **\$14.99**

Sidecarrier Accessory Mounting Kit

This kit allows you to add our Basic Bottle Mount or Storage Tube to the inner side of your EVO Sidecarrier. Basic Bottle Mount and Storage Tube are sold separately.

MBK.00.806.10000.B: **\$24.99**

QUICK-LOCK Contour Carrier for Givi V35 PLX Sidecases

SW-MOTECH
BAGS-CONNECTION

Starting At
\$284.99

ORIGINAL
QUICK-LOCK
SINCE 1999

QUICK-LOCK Contour Carrier Features

- For use *only* with Givi V35 PLX and Kappa K33N K-ROAD sidecases.
- Contoured shape to fit the profile of your motorcycle for increased volume in a streamlined profile.
- Attaches and detaches from the bike in seconds.
- Givi V35 sidecases, when used with QUICK-LOCK Contour Carriers, provide the narrowest aftermarket hard luggage solution available.
- Constructed of tubular steel.
- No sidecase adapter necessary.
- Optional keyed lockable QUICK-LOCK fasteners to prevent removal of Contour Carriers. **QLS.00.046.10100.B**
- Optional hard-bolt kit to increase security and durability on rougher road surfaces. **KFA.00.840.10000.S**

Suzuki GSF1250 Bandit

See page 113 for information on Givi V35 cases.

Contour Carriers are bike-specific - see pages 156-227 to find a Contour Carrier that fits your motorcycle.

A Saddlebag System for Sport Bikes

Scan this QR code to see a video about the Blaze Saddlebag System.

Support Arm Holders bolt on to passenger footpeg mounts

Tired of burnt straps, cooked saddlebags, and tire friction holes in your saddlebags? Bags-Connection Blaze Sport Saddlebags are the Solution!

The Blaze Sport Saddlebag System features an aerodynamically-shaped saddlebag that fits many modern sport bikes. Blaze Sport Saddlebags are constructed of 1680 Ballistic Nylon. Each has a volume of 14 liters (21 liters when expanded).

What's really unique about the Blaze Sport Saddlebags are the support arms. These quick-attach/detach arms support the saddlebags so they don't move. No more worrying about whether your sagging saddlebags are touching your hot exhaust or are about to get caught in your tire.

When you're done riding for the day, the saddlebags and support arms can be removed in less than a minute, returning your sportbike to its original look. No funky-looking luggage carriers! QUICK-LOCK Support Arm Holders bolt on to your passenger footpeg mounts using included hardware.

Support Arms snap into Holders in seconds

Each Sport Saddlebag Kit Includes:

- Saddlebags (pair)
- Waterproof liner bags (pair)
- Bike-Specific Support Arm Mounts (pair)
- Bike-Specific Support Arms (pair)

Bike-specific Sport Saddlebag kits are listed on the next page. Kits for more models are in development.

Support Arms prevent movement of Saddlebags

Each Sport Saddlebag expands by 2.75", providing a volume of 14 to 21 liters per bag

How to attach Blaze Sport Saddlebags to your bike:

STEP 1

Insert the Support Arms into the Support Arm Holders. **CLICK.**

STEP 2

Slide the receiving sleeve of the Saddlebag onto the Support Arm.

STEP 3

Secure the Velcro flaps over the passenger seat.

STEP 4

Connect the safety clip at the front end of each bag to the passenger footpeg mount. Now, you're ready to ride!

Aero Sidecase System

A Truly Unique Sidecase Design

BC.HTA.00.675.1000

\$425⁰⁰

Sidecarrier and adapter sold separately

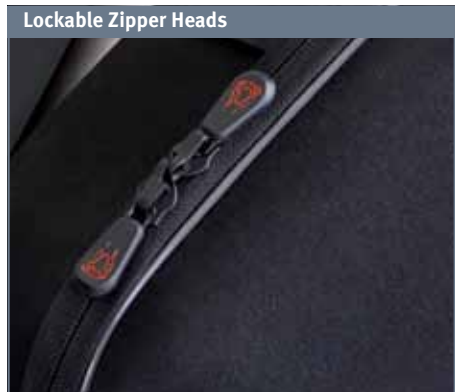

Scan this QR code to see a video about the Aero Sidecase System.

Aero Sidecases are a new and innovative, rigid saddlebag with the look of a soft saddlebag, but with the benefits of hard sidecases. The 31-liter Aero bags are constructed with a rigid 2.5 mm thick ABS plastic shell that is covered by a Nylon laminate. The surface looks like Ballistic Nylon soft luggage, but the case has the strength and rigidity of hard luggage while remaining lightweight. Aero bags are mounted using the required QUICK-LOCK EVO Sidecarriers and AERO sidecase adapters (see page 85). Integrated locks prevent the theft of the bags.

Includes:

- Sidecases (pair)
- Waterproof dry bags (pair)
- Locking sidecarrier adapters and keys (2)
- Zipper locks (2)

Each AERO sidecase comes with its own Bags-Connection Dry bag!

Waterproof welded tarpaulin liner bags fit perfectly into Aero sidecases to keep your stuff nice and dry. Simply wrap and connect buckles to close.

How to attach AERO Sidecases to your bike:

Aero sidecases attach to your bike using the Aero Adapter for the EVO Sidecarrier.

Aero Adapter
\$26.00
 per pair

STEP 1 Install EVO Sidecarrier mounting points (sold with sidecarrier)

STEP 2 Attach EVO Sidecarriers with Aero adapters (sold separately)

STEP 3 Slide on your Aero sidecases

STEP 4 Go ride!

Optional AERO Laptop Bag

The Aero waterproof laptop carrying bag accommodates widescreen laptops with up to 17" diagonal screens. Maximum laptop dimensions: 15.5" x 11.5" x 1.75"

Bag is also great for storing books and cookie recipes.

BC.HTA.00.675.1010 **\$34.99** each

Integrated elastic straps hold your laptop securely in place, while the included rain liner protects the laptop from the elements.

EVO Sidecarriers (sold separately) are bike-specific - see pages 156-227 to find a sidecarrier that fits your motorcycle.

Starting At
\$364.99

TraX Stowable Camp Table

ALK.00.165.30500: **\$119.99**

Our aluminum camp table stows easily inside your TraX sidecases and provides a stable 16.5" x 27" platform for important campsite activities. We dig it.

Folded dimensions: 16.5" long x 7.5" wide x 1.25" thick

The Camp Table folds in half for storage and fits easily inside the lid of a TraX EVO sidecase using the included Stow Bar.

Camp Table Legs

ALK.00.165.30600: **\$65.50**

Need more ways to use your trusty camp table?

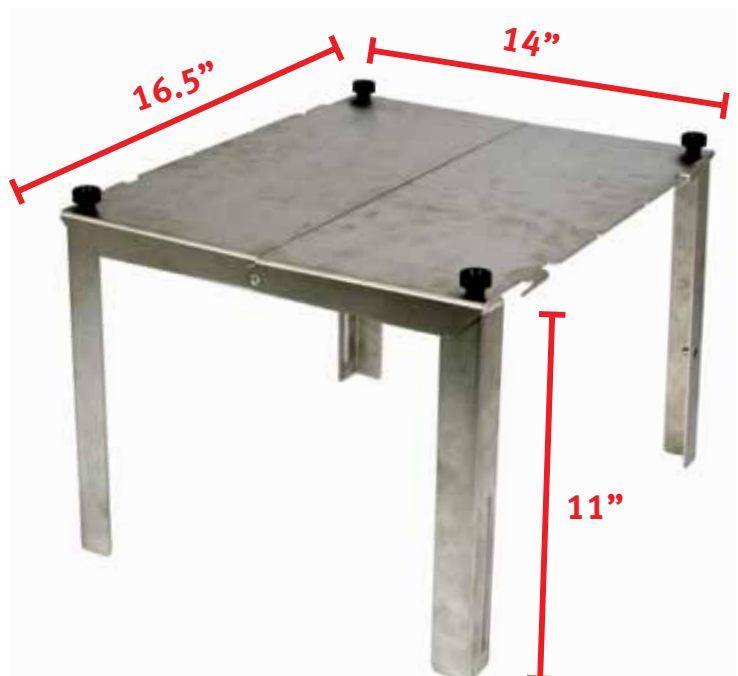

This set of aluminum table legs attaches to your Camp Table with included thumbscrews. Use the four fixed-length legs to create a stand-alone table.

Alternatively, you can convert the four fixed-length legs into two adjustable-length legs (13" - 16.75" long). These two adjustable legs can support the Camp Table when attached to only one TraX box.

The set shrinks down to 13" long x 1.5" wide x 1.5" deep for easy storage.

Create a 20" x 16.5" table using your Camp Table and one TraX box.

Looking for extra storage?

Basic Bottle Mount with MSR 30oz Fuel Bottle

Basic Bottle Mount

This bottle mount bolts permanently to the outside of any flat-sided surface, including sidecases, and can be used to carry our MSR 30oz Fuel Bottle and Twisted Throttle 30 oz Water Bottle. It can hold any bottle with a height of 8" to 12" and a diameter of 2.5" to 4". Velcro straps and a top-end bungee cord are provided for added security.

Bottle mount includes hardware for attachment to flat surfaces, including sidecases. Installation onto an QUICK-LOCK EVO Sidecarrier requires the Sidecarrier Accessory Mounting Kit (sold separately, see page 86).

BMT.00.805.10000.B: **\$29.95**

MSR 30oz (887ml) Fuel Bottle

Air-tight seal allows fuel to be stored longer by preventing air from entering and degrading fuel. Made from a single-piece of impact-extruded aluminum to prevent leaks and cracks. Bolstered shoulder and base to resist bulging when pressurized. Diameter 3.15"

*Sidecarriers and topracks sold separately.

Universal Quick Release Case Adapter

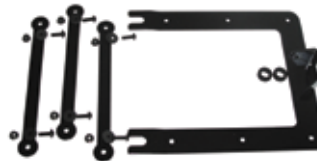

Turn your favorite mil-spec cases into quick release motorcycle luggage. Simply mount the U-shaped quick release adapter to your case and mount the rack adapter hardware to your top or side rack. **The integrated snap lock enables effortless one-handed attaching and removal of the cases.**

To attach the cases, just line up the bottom feet with the guides on the rack and snap the case into the lock catch. You will hear a snap as the case engages and locks to the rack. To remove the case just turn the key and lift up.

The Quick Release Case Adapters work on SW-MOTECH top and side racks as well as Givi PL-series and PLR-series side racks.

Starting At
\$10250

Adapter only (each). Cases, top rack, and sidecarriers sold separately.

Quick-release adapter with carrier lock

Adapter dimensions:
10.5" wide by 12" tall.

Why choose Coocase Topcases?

Coocase Topcases

are full-featured, stylish cases that provide secure, waterproof storage for your precious cargo. Each base and lid is made from tough nitrogen-injected polypropylene with sturdy hinges and locking systems. Coocase topcases come with a universal mounting plate and hardware for easy installation.

Coocase topcases are available in two versions. You can choose the **Basic** topcase or you can opt for the feature-rich **Volt** edition.

Basic Topcase Features:

- Simple operation: Just push down on the lid to latch it in place. To open, push the top red button and lift the lid. Push the bottom button to release the case from the mounting plate.
- Ratcheting lid-supports prevent the lid from accidentally closing on your fingers.
- Hidden carry handle.
- Includes universal mounting plate suitable for flat rear luggage racks.
- Three-year warranty.

Additional Features included with Volt Topcases:

- Integrated LED running light and brake light.
- Remote control keyless entry with a 50 foot range. Two keys are included (one folds into the remote control).
- Soft, cushioned inner liner.
- Interior hookup port for a 12-volt cigarette socket and USB charger. Accessory Charger Kit sold separately (see page 109).

S50 Volt in Gloss black:
CC.S50.LLW.148A \$299.99

Coocase or... Robby the Robot? Coocase's ultra-bright LED brake lights are simply sinister on the road at night.

See pages 110-111 for bike-specific Coocase installation hardware.

Included is a universal mounting plate that is compatible with all flat rear luggage racks, including all SW-MOTECH Steel Topracks, SW-MOTECH ALU-RACKS, and many original rear racks. See full application chart at www.twistedthrottle.com

No complicated latch mechanism to figure out! To open the lid, just push the release button and lift. To latch the lid, push it closed.

Customize the look of your case by replacing the original lenses with red, smoke, or clear lenses (replacements sold separately).

Padded backrests are available for all topcases.
CC.BR-02 fits V37 and S50: \$39.99
CC.BR-03 fits S28: \$39.99

CooCase Basic Topcases

S28, V37, and S50 Basic Topcases

Basic Topcases are an economical choice for riders who don't need the extra features found on the top-of-the-line Volt edition (see next page). The Basic models have all of the same structural features as the Volt, including rugged lid and base construction. Basic Edition topcases are available in matte black ONLY.

Includes universal mounting plate suitable for flat rear luggage racks.

See pages 110-111 for application chart.

Coccase Volt Accessory Charger Kit

Charge Your Mobile Phone in your Coccase!

This kit provides a 12-volt cigarette socket for the inside of your Coccase **Volt Topcase** (V37 and S50).

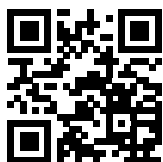

Connect the socket to the Coccase's internal power port, and the socket's blue LED will light up to let you know it's got juice.

The kit also includes the USB charging adapters shown to the right, making it easy to charge most cell phones, mp3 players, and other small electronics from within your Coccase **Volt Topcase**.

Not available for **Basic Topcases**.

\$19⁹⁹

Adapters to fit Coocases onto other brands of aftermarket topcarriers

If noted in the chart, the following additional hardware is required for easiest installation:

1	Requires Aftermarket Toprack Adapter Kit 3	CC.HB-01
3	Requires Aftermarket Toprack Adapter Kit 2	GPT.00.152.157_TWT
4	Requires adapter for SW-Motech Alu-Rack (see page 82)	
	For S28 and V37 topcases	GPT.00.152.46000.B
	For S50 topcase	GPT.00.152.46100.B
	Electric for S28 and V37 topcases	GPT.00.152.42000.B
	Electric for S50 topcase	GPT.00.152.46300.B
5	Requires drilling 2-4 mounting holes in original factory luggage rack	None - use plate included with Coocase
6	No adapters or modification required	None - use plate included with Coocase
7	Must remove original sissy bar if present	None - use plate included with Coocase

"Original carrier" means the OEM carrier that always comes with the purchase of the bike

"Accessory carrier" means the optional OEM carrier that can be added to the bike

Coocase S50 mounted to an SW-MOTECH ALU-RACK on a Triumph Tiger 1050.
GPT.11.619.100

Givi Monokey luggage cases are waterproof, lockable, heavy-duty cases designed for use with motorcycles and large scooters. Accessories available for Givi Monokey topcases include inner nylon liner bags, brake lights, backrests, and steel topacks that can be used to attach large bulky items (e.g., tent or sleeping bag) to the lid of your topcase. All Givi cases can be locked, unlocked, and removed from the bike with just one key. Givi Monokey cases can be used as both sidecases and topcases. Givi Monokey cases cannot be attached to Givi Monolock luggage carriers but are compatible with bike specific topacks and sidecarriers manufactured by Givi and SW-MOTECH (sold separately). We carry all luggage racks from these manufacturers. See page 156-227, call us or visit www.TwistedThrottle.com for bike-specific fitting information!

Givi TREKKER Luggage

Available in 46 liter and 33 liter sizes, TREKKER cases can be used as sidecases or topcases. TREKKER cases are constructed of rugged, durable plastic with a metallic finish.

Their unique design allows you the option to open either the entire lid or just the smaller upper opening. This allows easy access to gear when using the cases as sidecases WITHOUT accidentally emptying your sidecases onto the pavement.

Sold individually or in a 3 piece set:

33L (20" x 16.2" x 9.1")
 GIVI TRK33N: **\$288.00**

46L (20" x 16.2" x 12.2")
 GIVI TRK46N: **\$301.50**

3-pack (two 33L cases and one 46L case)
 GIVI TRKPACK3: **\$832.50**

TREKKER Sidecase Mounting Options:

- Givi Monokey bike-specific sideracks.
- SW-MOTECH bike-specific siderack with Givi Monokey adapters.

TREKKER Topcase Mounting Options:

- Givi Monokey bike-specific topracks.
- SW-MOTECH bike-specific topracks with Givi Monokey adapter.

LED Lighting for Hard Luggage

Starting At
\$99⁹⁹

While Coocase & Givi offer basic add-on brake lights for a few topcase models, AdMore Lighting's LED conversion kits kick it up a notch. AdMore Lighting provides super-bright brake lights, running lights, and turn signals for many popular models of Givi and other hard-shelled cases.

Why use one of Admore Lighting's LED kits? Simply put, they're brighter, consume less power, and are more durable and longer lasting than incandescent bulbs.

Each easy-to-install LED light kit includes LED light strips, wiring connectors, mini controller, and easy-to-follow instructions.

Quick-Release Brake Light/Running Light Conversion Kits

Do you already have an original Coocase or Givi brake light kit and want to upgrade to a brighter LED brake light/running light? Check out AdMore Lighting Mini Kits to retain Givi's quick-release hands-free connector functionality without drilling any holes in your case! Mini Kits require an existing Coocase or Givi brake light connector kit and do not provide turn signal functionality.

Coocase S48 with Mini Kit

Self Adhesive Flush-Mount LED Light Kits

Extra lighting! Extra Safe!

Starting At
\$119⁰⁰

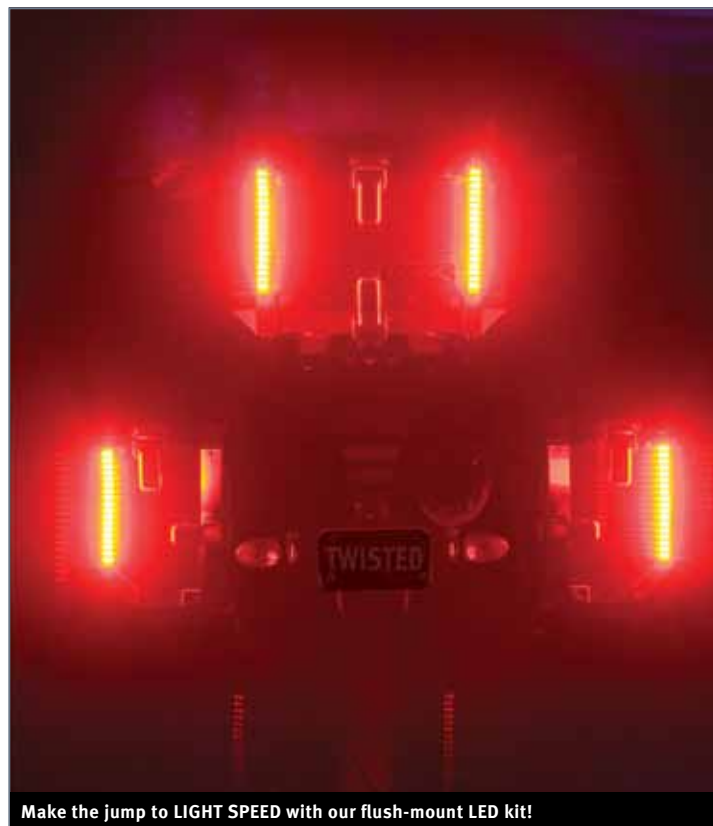

Nuclear Firestorm Flush-Mount LED Kits (includes brake light, running light, and turn signal functions)

Our flush-mount LED kits transform your two-wheeled stealth fighter into a blazing ball of light that no mortal eyes can miss. While designed primarily for installation on the flat rear surfaces of aluminum sidecases or topcases, these LEDs can be installed on any flat surface. The kit's dual-intensity (high and low) LED strips are clear when turned off, but bright red when energized.

The kit is easy to install and significantly enhances your visibility on the road and the good looks of your luggage. Each kit contains two self-adhesive high-intensity weatherproof LED strips and a mini controller harness for splicing into your running, turn signal, and brake light wires. The mini controller embedded in the main harness fits neatly under your motorcycle/scooter seat or behind the taillight assembly. The kit also includes a quick-release mechanism so that the wiring won't interfere with the removal of your cases. Once installed, the LEDs will glow at low intensity when riding, brighten when you apply your brakes, and flash at high intensity with your turn signal lights.

Without extra lighting, you're in stealth mode... Not good!

Make the jump to LIGHT SPEED with our flush-mount LED kit!

Flush-Mount LED Kit	Dimensions	Part No.	Price
Sidecase Kit	Incl. two 5.5" x 0.5" x 0.25" LED strips	AML.LED.4014.S.TS	\$129

Tired of not being seen at night?

ReflectGard reflective kits add a custom-cut piece of automotive-grade 3M Scotchlite™ reflective sheeting to your motorcycle, helmet, or even your luggage, making you more visible when targeted by another vehicle's headlights! These custom-fabricated kits make your Givi, Coocase, and TraX ALU-BOX cases both highly reflective and easily noticed. All kits come with detailed application instructions. The black reflective tape is invisible against black surfaces until it is hit by light; perfect for when you want to be subdued or discreet.

Coocase V28 without ReflectGard – Not much to look at, right?

Coocase V28 with ReflectGard – Roswell aliens got nuthin' on you!

GIVI V46 Top case without ReflectGard – Stealth Mode is not good for bikers.

GIVI V46 Top case with ReflectGard – your bike's got afterburners!

TraX ALU-BOX cases with black Reflectgard kit in normal lighting conditions.

TraX ALU-BOX cases with black ReflectGard kit reflecting high beams.

AdMore LED Light Bars get attention!

Includes running light, modulated brake light, and turn signals. When you brake, a built-in brake-light modulator causes the light bar to flash 3 times before turning solid at 100% intensity, helping to alert drivers behind that you are slowing down or stopping. When a turn signal is on, the LEDs on the turning side flash yellow while the remainder of the LEDs stay red and operate normally as running and taillights. Both light bars mount easily to any flat surface, license plate bracket, or the underside of most rear luggage racks, with or without a topcase mounted, using the included hardware.

Housed in a black polycarbonate case with clear lens.

Provides:

- Red tail light (50% intensity)
- Red brake light (maximum intensity)
- Yellow turn signals

AdMore simplifies installation by providing Posi-Tap™ electrical connectors, which allows you to wire the light bar to your original wiring harness without tools; no stripping, crimping, or soldering required!

AdMore Light Bars are CANbus compatible.

AdMore Large LED Light Bar

\$139⁰⁰

This large 10.75" light bar enhances visibility and safety!
Fits well on large touring motorcycles as well as 4-wheeled vehicles.

When a turn signal is on, two of the four clusters will flash yellow.

Constructed of 72 high-intensity **bi-color LEDs**.
Approximately 10.75" across, 1.625" tall, and 1" thick.

Scan here to watch the demonstration video.

AML.LED.U.7226NTTS

AdMore Mini LED Light Bar

\$129⁰⁰

The Mini 8" light bar gets attention!
Similar to the large light bar, but 8-inches wide. Fits well on the license plate brackets of most motorcycles.

Constructed of 54 high-intensity **bi-color LEDs** in three clusters.

Approximately 8" across, 1.25" tall, and 1" thick.

AML.LED5420.T.TS

Rider Grip

Give your passenger peace of mind with the Oxford Rider Grip. Rider Grips provide a secure handhold for greater comfort and security, especially on motorcycles without grab rails.

- Offers true long distance comfort for your pillion.
- Comfortable, ergonomic design.
- Fully adjustable double belt system.
- Mesh inner lining to increase breathability.
- Fits waist sizes from 36" to 50" while wearing outer jacket.
- 3M™ high visibility reflective piping.

\$29⁹⁹

OXF.OF589

Visor Transporter

It's important to be able to see clearly for safety. For riders who use dark shields, this means carrying a clear visor for cloudy days, inclement weather or nighttime riding. The Stowaway Visor Transporter saves your spare helmet visor from scratches and other damage.

- Accommodates most visors.
- Included quick-release carrying belt is ergonomically shaped to hug your waistline.
- Soft anti-scratch lining.
- Made from tough 840 denier nylon-backed polyester.

\$9⁹⁹

OXF.OF588

Clear Shot Lens Cleaning Kit

\$19⁹⁵

CLR.100

Clear Shot is an all-in-one, compact anti-fogging/lens cleaning kit perfect for safely cleaning all types of lenses, including goggles, and helmet visors. Designed for easy use without removing your gloves. Included 1 oz. spray will last a few weeks of dirty, all-day riding or 3 to 6 months of commuting. 8 oz. refill bottle available. Cases are available in Cobalt Blue, Racing Red, Safety Orange, and Matte Silver

How to use:

- Open the caps and remove the spray.
- Pick a cloth. Use blue for grime and white for polishing.
- Spray and wipe clean.
- Put fluid and cloths away and stow case.

Clear Shot kit includes:

- Rugged ABS case (choice of four colors).
- 1oz. anti-fog cleaning spray.
- Blue micro-fiber cloth for removing grime.
- White micro-fiber polishing cloth.

8oz. refill bottle:
CLR.1131: **\$16.95**

Stash Box lockable license plate storage box

The Stash Box is a weather-resistant storage box that mounts between the motorcycle's fender and the license plate. It is ideal for storing your registration, wallet, and other small objects. The Stash Box is unobtrusive, inexpensive, and secure

- Sized to work with all standard license plates.
- External Dimensions: 7" x 4" x 1" (plus 1" lock assembly).
- Internal Dimensions: 6.3" x 2.2" x 0.8".
- Includes lock and two keys.
- Made from molded polypropylene.
- Includes all mounting hardware, retention pouch for paper documents, and foam insert.

TT.SBX.10000

The Fastest, Cleanest Way to Mount a Tankbag

QUICK-LOCK EVO tankrings are an innovative way to mount Bags-Connection Quick-Lock tankbags.

Features:

- Allows tankbags to be securely attached and detached in seconds.
- No magnets; works with plastic and aluminum tanks.
- No straps; won't scratch the paint on your tank.
- Tankring bolts to gas cap using included screws; no drilling or tank modification required.
- Tankring does not interfere with gas cap use.
- Location of tankbag is customizable by mounting the topping further forward or back on the bottom of the tankbag.

Once you've installed the Tankring, attaching your tankbag is easy!

QUICK-LOCK Tankbag attachment instructions:

STEP 1

 Position tankbag directly over tankring.

STEP 2

 Press down on tankbag, locking it into position.

Detach the tankbag with one hand in one second!

QUICK-LOCK Tankbag detachment instructions:

STEP 1

 Pull cord to release locking mechanism.

STEP 2

 Lift bag up.

QUICK-LOCK Tankring adapter kits for fuel tanks without traditional gas cap rings

\$79⁹⁹

Does your bike lack a gas cap ring?

There are a limited number of bikes that make it a little difficult to mount a QUICK-LOCK Tankring and tankbag. But rest assured, SW-MOTECH has the solution.

With the QUICK-LOCK Tankring Adapter Kit you can mount Bags-Connection tankbags directly to your bike. The included hardware utilizes your bike's factory threaded holes making installation super easy.

Tankring Adapter Kits for Rear Luggage Racks

Want to mount a tankring to your tail section? It's easy with this rear luggage rack adapter.

ALU-RACK adapter for QUICK-LOCK EVO Tankbags

Attach and detach the tankring adapter in seconds with the QUICK-LOCK fastener. Simply fit the adapter into the rack cutout and then turn the fastener to secure the adapter to the rack.

\$74⁹⁹

TRT.00.640.20400.B

What's in the kit:

- QUICK-LOCK EVO Tankring Adapter
- QUICK-LOCK EVO Tankring

See page 82 for more information on ALU-RACKS (ALU-RACK sold separately).

STEEL Toprack adapter for QUICK-LOCK EVO Tankbags

Permanently installs a Tankring onto your Steel Toprack using through bolts.

\$39⁵⁰

TRT.00.640.13500.B

What's in the kit:

- QUICK-LOCK EVO Tankring
- Mounting hardware

See page 80 for more information on Steel Topracks (Steel Topracks sold separately).

Compatible tankbags: Sport, Micro, and Daypack (see pages 127-129)

Add electrical power to your QUICK-LOCK Tankbag!

You will need to buy a QUICK-LOCK Tankbag and an electric tankbag mounting kit for your bike. Here's how to install it:

STEP 1 Install an Electric QUICK-LOCK Tankring on your tank's gas cap.

Bolt the tankring onto your gas cap, then run the power cable under the front of the tank.

Connect the tankring's power cable to the motorcycle's battery.

STEP 2 Install an QUICK-LOCK Electric Topping onto the bottom of a QUICK-LOCK Tankbag.

The Electric Tankring attaches to the bottom of a QUICK-LOCK tankbag with 4 bolts. Drill a fifth hole in the bottom of the bag and pass the SAE cable inside.

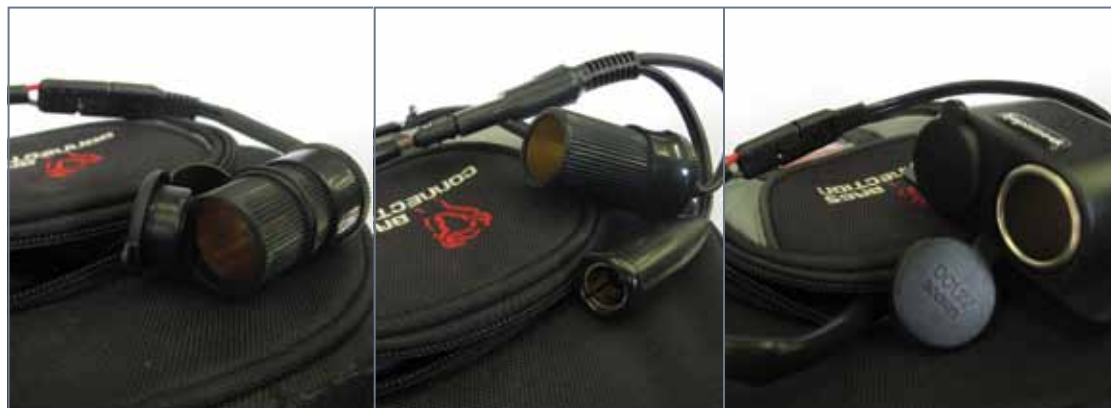

The Electric Tankring wires run up through a hole in the bottom of the tankbag and terminate in an SAE connector.

The tankbag's SAE connector allows you to charge cell phones, cameras, iPods and other gadgets through the tankbag.

STEP 3 Distribute electrical power within the tankbag.

Connect an electrical socket of your choice to the SAE connector.

Single cigarette socket

BC.POW.00.008.1000 \$17.99

Cigarette socket & mini-Euro socket

BC.POW.00.009.1000 \$39.99

Dual cigarette socket

BC.POW.00.010.1000 \$34.99

USB Charging Adapter

Converts a 12-Volt cigarette socket into a USB socket, allowing you to charge any device that you normally charge via a computer's USB port.

BC.POW.00.012.100 \$14.99

Electrical Tankbag Wiring Accessories	Notes	Part No.
QUICK-LOCK Electrical Tankring	For use with corresponding electrical bottom ring to electrify a QUICK-LOCK tankbag.	TRE.00.475.102
Splitter (bullet connector style)	Allows connection of an additional sockets inside tankbag (sold separately).	TT-00005
SAE Adapter	For use with splitter (sold separately). Converts original bullet connectors within an electric tankbag into an SAE connector.	TT-00004

Complete Electric Tankbag Kits Include:

1. Electric Topring

This electric topring replaces the original non-electric tankbag ring on a Bags-Connection QUICK-LOCK tankbag so that it can be used with an electrified tankring. (Not for sale without purchase of a Bags-Connection QUICK-LOCK tankbag).

2. SAE adapter

Converts the bullet connectors on the QUICK-LOCK Electric Tankring into an SAE connector.

3. QUICK-LOCK Electric Tankring

The QUICK-LOCK Electric Tankring includes a pre-assembled, fused wiring harness for direct attachment to your battery terminals. Compatible with all QUICK-LOCK tankbags.

(QUICK-LOCK tankbag and electrical sockets sold separately)

Gadget Mounts and Map holders for QUICK-LOCK Tankbags

GPS/Phone/Radar Bracket

Features:

- The GPS/PDA bracket slides into two sleeves at the front of the tankbag.
- For use with:
 - all Bags-Connection device pockets (see page 59),
 - all RAM, Garmin Zumo, and TomTom Rider device cradles (see page 58)
 - all other device cradles with an AMPS hole pattern (see page 59-60).
- Weather-resistant GPS/PDA bags have eyelets on their edges to pass through electrical or audio cables (see below).

Dimensions: 6 1/4"L x 4 1/2"W x 1 1/2" deep
BCK.GPS.00.010.100: **\$46.50**

Simply slide the bracket into the sleeves on the bag and snap.

Fits the following tankbags:

- Daypack
- City
- Engage
- GS
- Trial
- Enduro
- Sport
- Enduro LT

(see pages 127-135 for QUICK-LOCK Tankbags)

Gadget Pouches and Dry Bags

GPS/PDA Pockets with Sun Visor

Weather-resistant, splash-proof GPS/PDA bags are perfect for navigation devices and smart phones. Bags feature a sturdy base for secure mounting and eyelets to pass-through electrical or audio cables. Mounts directly to a RAM-B-238 base, any Techmount, or any SW-MOTECH GPS holder. iPhone and Android touch-screens can be used through the clear window. The pocket's perimeter zipper makes accessing your device extremely fast, but also makes the pocket somewhat permeable to heavy downpours. If you need a 100% weatherproof solution and don't mind slower entry, use the roll-top GPS Dry Bag.

Medium Pocket fits Garmin Nuvi 30, 40, 1350, 3750, 2300LM, Tom Tom XXL 540TM, Go2435, Magellen 1424, and similar.
Dimensions: 5.7" x 3.7" x 1.4" deep
BC.GPS.00.003.1000: **\$34.99**

XL Pocket
The extra-large bag provides even more depth compared to the large bag. Fits some XM radios and GPS units.
Dimensions: 5.7" x 3.9" x 3.0" deep
BC.GPS.00.001.1000: **\$47.99**

AMPS pattern fitment

Small Pocket

Fits Apple iPhones, Samsung Nexus, Motorola Atrix, HTC EVO 4G and similar.
Dimensions: 5.3" x 3.5" x 1" deep
BC.GPS.00.004.1000: **\$29.99**

Large Pocket

The large bag provides extra depth for thicker PDAs.
Dimensions: 5.7" x 3.9" x 1.8" deep
BC.GPS.00.002.1000: **\$42.99**

GPS Dry Bag

100% weatherproof (not submersible)
Fits apple iPhones, Samsung Nexus, Motorola Atrix, HTC EVO 4G and similar.
Dimensions: 5.3" x 3.5" x 1.2" deep
BC.GPS.00.005.1000: **\$34.99**

Lighting Accessories for QUICK-LOCK Tankbags

12-volt LED map light panel

BCK.TRE.00.036.100: \$39.99

Rechargeable Mini Flashlight

*It's only 2 inches long!
Recharges in your tankbag's
cigarette socket.
NEB.HB: \$9.99*

A perfect tankbag lighting solution!

Map light requires mini-Euro socket. Flashlight requires full sized cigarette socket (see page 61-62 for more info).

Map Holder for QUICK-LOCK Tankbags

Fits the following tankbags: Daypack, Engage, Sport, Trial, Enduro, Enduro LT, City, and GS

Dimensions:
Exterior - 10"W x 10.5"L
Interior - 9.5"W x 10"L

BC.TRS.00.150.1000: \$29.99

*Note: Map Holder is equipped with a touch sensitive membrane that allows gadgets like iPhones and Android smartphones to be operated when in mapholder.

Dry Bag Device Holders for Bags-Connection Tankbags

These roll-top welded dry bags are sized to hold your smartphone or tablet and are 100% weatherproof (not submersible).

The dry bags can be securely connected to all Bags-Connection tankbags except the "Micro".

iPhone and Android touchscreens can be used through the clear window!

Smartphone Dry Bag

Holds Apple iPhones and most Android smartphones.

QUICK-LOCK Tankbags

This year's BAGS-CONNECTION product line sets a new standard for quality and refinement in motorcycle touring luggage. Using extra-durable materials with smart features, these premium-quality bags fit perfectly on a wide variety of motorcycles.

Your new Bags-Connection bags might be the last motorcycle luggage you ever buy.

Tankbag Features:

All QUICK-LOCK tankbags include a 100% weatherproof rain cover with a clear map window.

GPS mount sleeves provide a secure, quick way to add a GPS mount to your tankbag. Available for all tankbags except the Micro.

All bags have cable pass-throughs. The forward cable pass-through can be used to run GPS/gadget wires, and the rear pass-through can be used for headphone cables or a hydration straw.

Interior lid organizer; configuration varies among bags.

Need more space? Unzip the expansion zipper and increase the volume of your bag!

Keep the interior neat and tidy with lid and wall organizer pockets (both sides of the bag) and elastic cable organizer straps (right side),

Lock the bag to the bike with the available Lock Pin (sold separately).

Super durable 1680 Ballistic nylon has higher abrasion and tear resistance than most materials found in armored riding jackets.

Zipper keepers keep zipper pulls from flapping around. Say that 5 times fast!

Top waterproof seal rolls closed

Fits 17" laptop inside

Inspired by military tactical gear, DrySpec™ Dry Bags are the toughest and most versatile motorcycle dry bags on the planet. DrySpec Dry Bags come in two configurations; the D28 “Dual-end” Dry Bag and the D38 “Rigid” Dry Bag. Save some money by buying both bags at the same time with the D66 Dry Bag Modular Packing System.

Starting At
\$69⁹⁹

See the video!

DrySpec D28 Dual-End Dry Bag

The DrySpec™ D28 Dual-End Dry Bag is constructed of RF welded 18 oz. vinyl that guarantees 100% waterproof performance even when submersed. Unlike other dry bags, the D28 features a dual-end roll design that allows access to belongings from either end of the bag. No need to disconnect the mounting straps. Simply select the end you want to access, release the two securing clips, unroll, grab, re-roll, secure the clips, and go.

A 4-point Quick Connect Soft-Tie Strap and Daisy-Chain Mounting System is used to attach the bag to the motorcycle. Not only does this allow quick and easy mounting and removal, but also prevents load shifting for exceptional security. The D28 adapts to the shape of the contents you put inside, whether that is a sleeping bag, clothing or a laptop computer.

The D28 can be used on motorcycles with or without a luggage rack. You can mount the D28 parallel to the direction of travel or perpendicular across the passenger seat. You can even mount the D28 on top of existing side cases. However you choose to mount the D28, rest assured that your stuff will remain secure and dry.

Specifications:

- 100% Waterproof
- 9" wide x 9" tall x 22" long (average packed dimensions)
- 28 Liter capacity

\$69⁹⁹

DSL.D28.10000

Fits on:

- Most rear seats, rear luggage racks, or sissy bar racks.
- Not for use unsupported behind a sissy bar.

Get creative! Use the D28 as an expansion bag for your sidecases.

The D28's exterior daisy chain can be used to strap on a NEMO Morpho 2P Tent (see page 154).

D28 and included straps

DrySpec D38 Rigid Core Dry Bag

See the video!

Unlike other dry bags, the **D38 Rigid Core dry bag** features a rigid structure, which means that the bag functions more like a topcase than a traditional dry bag. You can mount the D38 onto any motorcycle with or without a rear rack. The D38 can be mounted even when the bag is completely empty. Try that with a traditional dry bag!

The rigid construction and unique 4-point Slip-Lock Strap mounting system allow access without loosening straps or removing the bag from the bike. Another feature of the DrySpec D38 is the Contour Roll Top Seal that rolls down to a fixed point with no excess material from the end of the roll. This ensures a clean look and a perfect waterproof seal.

Included is a 4-in-1 Utility Strap that acts as a compression strap to help compact your contents, a shoulder strap, a carrying handle, and a cargo strap to fasten additional gear on top.

The rigid core makes this empty D38 function like a topcase.

Specifications:

- Measures 13" wide x 9" tall x 22" long
- 38 Liter capacity
- Daisy-chain

\$129⁹⁹

DSL.D38.10000

D38 and included straps

The D38's Slip Lock Strap System makes securing the bag to your bike quick and very easy.

The 4-in-1 Utility Strap being used to secure a Nemo 2P (see page 154).

DrySpec D66 Dry Bag Modular Packing System

Enjoy \$20.00 savings when purchasing the D28 and D38 together as the D66 dry bag system. Combining the D38 and the D28 creates 66 liters of waterproof storage. The modular design allows secure, quick, and easy mounting of the D28 onto the D38 dry bag using Quick Connect Soft-Tie Straps and Daisy-Chain Mounting Systems.

\$179⁹⁹

DSL.D66.10000.B

The rigid core of the D38 allows mounting on bikes with a narrow tail section or seat.

The D38's rigid core allows the bag to be used across or parallel to the rear seat or luggage rack. It's even stiff enough to use as a backrest!

Soft Luggage Carriers

QUICK-LOCK Soft Luggage Carrier for SW-MOTECH ALU-RACKs

Removable quick-release adapter plate for mounting soft luggage or enlarging the surface area of the SW-MOTECH ALU-Racks. This adapter plate provides lots of possibilities for attaching tie-down straps to different points on the rack. Attaches/detaches in seconds using three quarter-turn fasteners.

Dimensions:
 - Depth: 10"
 - Front width: 15.5"
 - Rear width: 13"

GPB.07.710.10000.S (BMW R1200GS) \$79.99

Expansion Rack for SW-MOTECH Steel Topracks

Sliding expansion plate for mounting soft luggage or enlarging the surface area of a SW-MOTECH Steel Toprack. Create a large surface for luggage, or retract for a clean look when not carrying luggage.

Expands your Steel Toprack by 4.5" giving you a range of 12"-16.5" of total platform space.

GPA.00.804.10000.B \$54.99

- Secure 4 bolt installation.
- Easily widen your original Steel Toprack platform by up to 4.5"

- Loosen 4 attachment bolts to slide the wings inward or outward as needed for your luggage.
- Use it to attach Soft luggage to an SW-MOTECH Steel Toprack.

Steel Toprack required (see page 80-81).

Retracted Mounted Expansion Rack.

NEMO Morpho 2P Tent strapped to the Expansion Rack (see page 154).

Bags-Connection Zipper Lock

- The Bags-Connection Zipper Lock is ideal for securing the contents of any rear bag or Aero sidecase. Not for use with Bags-Connection tankbags.
- Ultra-compact design makes these locks easy to carry.
- Simply pull through any compatible zipper pulls and engage the lock.
- Reprogrammable combination.

BCK.LOC.00.001.001: \$7.50

Cable lock securing Backpack

50cm (19.7") long: **\$13.49**

100cm (39.4") long: **\$15.99**

BC.LOC.00

Cable lock securing Tankbag

Bags-Connection Cable Lock

- The Bags-Connection cable lock is ideal for securing tankbags and rear bags to the bike.
- Simply loop the combination end around the frame of the bike and through the loop on the other end of the cable and attach it to the bag's zipper pull and/or D-rings.
- Reprogrammable combination lock.

STA.HG.B: **\$51.95**

Helmet Guardian locking 2 helmets

Helmet Guardian

- Easy to install on either the upper or lower license plate bolts.
- Consists of two high quality, spring-loaded helmet locks attached to a steel plate that is pre-drilled with slots ready to attach to most US and Canadian license plates.
- Powder coated black
- 11" W x 2.5" L

Bungee Net

Easy to use, strong elasticized bungee net.

- 6 nylon-coated steel hooks.
- 17" x 17"
- Great for transporting bulky, lightweight items that don't easily fit inside your luggage.

OXF.OF1.77: **\$9.99**

Adjustable Motorcycle ROK Straps

These "flat stretch straps" are designed specifically for motorcycles, ATV's, and snowmobiles. The soft-loop design allows you to secure the straps without scratching your motorcycle. Loops on both ends can be secured to just about anything, while the mid-strap buckle allows you to tighten the strap to your needs. There are two strap styles available:

"**Motorcycle Straps**" are the strongest, most durable ROK Straps. Use them for securing larger luggage to your bike.

"**Pack Straps**" are thinner and are designed for smaller, lighter items like sleeping bags and tents.

Item	Description	Item No.	Price
Motorcycle Straps, black w/stripes	54" x 1"	ROK.00001	\$21.95
Pack Strap, black	42" x 5/8"	ROK.00308	\$9.95

Soft Luggage Application Chart

This application chart lists confirmed applications for tankbags and rear bags. "X" signifies compatibility, "-" signifies non-fit. The "Ring" column refers to the last digits of the product number for the appropriate tankring. See page 156-227 for bike-specific tankring applications

 GTR Requires TRT.00.475.140.GTR

Compact Tents & Sleeping Pads

Morpho 1P™ is the solo version of the Nemo Morpho 2P™ tent. Thanks to smaller diameter airbeams, Morpho 1P™ inflates faster and packs considerably smaller than its bigger brother, while retaining the same comfort and spaciousness.

Both tents come with venting compression dry bags and super strong aluminum X-stakes.

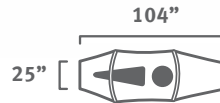

Even the tallest guy in the office (6'2") fits comfortably inside both versions of the Morpho tent.

Morpho 1P™

NEMO.892802002739

\$369.95*

*See website for current price.

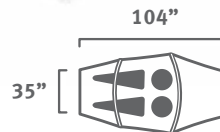

Morpho 1P™ packed
25 x 18 cm dia. (10" x 7" dia.)
1.8 kg (3.9 lbs)

Morpho 2P™

NEMO.892802002746

\$429.95*

*See website for current price.

Morpho 2P™ packed
35.5 x 18cm dia. (14" x 7" dia.)
2.4 kg (5.4 lbs)

New Boot Cut™ on Morpho 2P™ gives two pairs of boots a dry home for the night.

Nemo camping gear packs extremely small.

A NEMO Morpho 2P™ tent (with its pump), Cosmo™ (see page 155) sleeping pad and Fillo™ (see page 155) pillow fit in a Coocase V37 Topcase.

Inflates quickly using the integrated foot pump

Morpho tents use Inflatable Airbeams instead of standard tent poles. This means that they're lighter, pack smaller and are super fast to set up and tear down. If you're setting up in the rain, you can stake out your tent, climb inside, and inflate the tent from within. No getting wet!

	Morpho 1P™	Morpho 2P™
Capacity	1	2
Frame	5.1 cm (2") dia. Airbeam	8.9 cm (3.5") dia. Airbeam
Shell Fabric	40D OSMO™ W/B / 30D PU Nylon	40D OSMO™ W/B
Vestibule Fabric	30D PU Nylon	30D PU Nylon
Interior Height	37 in / 94 cm	42 in / 107 cm
Floor Area	30 sq ft / 2.8 sq m	39 sq ft / 3.6 sq m
Vestibule Area	7 sq ft / 0.7 sq m	14 sq ft / 1.3 sq m

Footprint™

Even with the best care, a tent floor is susceptible to damage after countless trips in the wilderness. Our Footprint, made of tough 70 denier Polyurethane coated Nylon ripstop, goes under your tent to protect the floor from sharp items on the ground.

1-Person: NEMO.814041010092:
MSRP: **\$44.95***

2-Person: NEMO.814041010115:
MSRP: **\$44.95***

Pawprint™

The Pawprint™ is a removable liner for the inside of your tent. It has the double function of protecting your tent floor from boots and paws while adding comfort. Pawprint™ is made of a machine washable, brushed fabric that is very soft to the touch. Place your sleeping pads underneath to help them stay in place.

1-Person: NEMO.814041010108:
MSRP: **\$49.95***

2-Person: NEMO.814041010122:
MSRP: **\$49.95***

**See website for current price.*

Cosmo™ Air Sleeping Pad

Cosmo Air™ is a lightweight sleeping pad with a built-in pump. This pad has a generous 3" thickness but weighs only about 2 lbs, making it ideal for backpacking, motorcycling, or other ultralight travel. Packs down smaller than typical self-inflating mattresses that are only 1/2" thick! The Cosmo™ takes only 1.5 minutes to inflate!

Included: Stuff sack, compression strap, and repair patches.

NEMO.814041010276:

MSRP: **\$129.95***

**See website for current price.*

Packed size:

9" x 4.5" diameter
1 lb 13 oz

Inflates quickly using the integrated foot pump.

Astro™ Insulated Sleeping Pad

Astro™ is an insulated sleeping pad that uses a thin layer of polyurethane foam welded to the inner surface of the pad to stop convective currents, creating a very consistent, even insulation. It uses an integrated valve for inflation. When inflated the Astro™ gives you 2.5" of pad thickness.

Included: Stuff sack, compression strap, and repair patches.

NEMO.814041011211:

MSRP: **\$99.95***

**See website for current price.*

Packed size:

8.5" x 4.5" diameter
1 lb 8oz

Which one is for you?

The Cosmo inflates in under 2 minutes using the integrated foot pump. It is larger and comfier when inflated and has a larger packed size than the Astro.

The Astro takes about 10 minutes to inflate by breathing and can also be inflated with an electric air compressor. The Astro is smaller, less expensive, and provides insulation for use in sub-freezing weather.

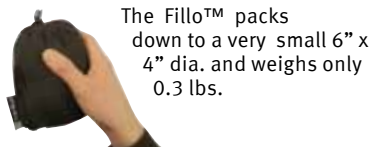

Fillo™ Travel Pillow

Fillo™ is our favorite travel pillow. The Fillo™ features 3" thick inflatable cells, 1" of memory foam, and a microfiber top. The Fillo™ cover is made of a velvety-soft machine-washable microfiber fabric. NEMO.814041010436: MSRP: \$39.95

An integrated shock cord allows you to add clothing and increase the height of Fillo™ for optimal neck support.

The Fillo™ packs down to a very small 6" x 4" dia. and weighs only 0.3 lbs.

Oxford First Aid Kit

Compact size (4" x 5.7" x 1.8"). Contains hygienically-sealed medical supplies.

Kit contains:

- 1x adhesive plaster tape
- 8x adhesive plaster bandages
- 2x sterile bandages
- 1x sterile compress (burn dressing)
- 1x scissors
- 4x disposable gloves
- 1x first aid manual
- 1x first aid blanket (160cm x 210cm)

Twisted Throttle Women's Contoured

When you ride, there's nothing that'll make you feel more comfortably twisted than this pre-shrunk 100% cotton, slim-fit T-shirt

S, M, L, XL, XXL, & XXXL

Color: Black
TT.TS.3: **\$10.00**

Twisted Throttle Men's Classic

The classic design of this stylish 100% cotton heavy-weight T-Shirt includes a silk screened Twisted Throttle logo. You too can be twisted!

S, M, L, XL, XXL, & XXXL

Color: Black
TT.TS.1: **\$10.00**

Back Detail

Twisted Throttle Low-Profile Baseball Cap
TT.HAT.2: **\$12.50**

Twisted Throttle Kick Pad

Tired of using a crushed soda can under your sidestand foot? How about using one of our Twisted Throttle sidestand pucks?

Black or yellow.
TT.SSP.101: **\$3.99**

Twisted Throttle Knit Winter Beanie
Part No. TT.HAT.3: **\$12.50**

Twisted Throttle PIT Shirt!
Help form our pit crew by sporting the Twisted Pit Shirt representing all our major brands 100% Polyester Full dye-sublimation printing!
TT.PIT.1: **\$99.99**

Reflective Sticker

Slap it on your bike and be seen better while riding at night!

TT.stk.01: **\$1.00**

Twisted Throttle Patch
Sew it on your favorite denim jacket!
TT.PATCH: **\$1.99**

My Dirtbike Has Slicks
Normal riding just isn't enough for you. You had to take a dirtbike and outfit it with Nascar tires. But that wasn't enough either, riding sideways is so much fun!

S, M, L, XL, XXL, & XXXL

Color: Black
TT.TS.11: **\$15.00**

Back Detail

Motorcycle vs Prius!

This one goes out to you battle commuters who insist on taking the bike to work even when it's 40 degrees and raining. It's time you get some green respect too!

S, M, L, XL, XXL, & XXXL

Color: Navy
TT.TS.7: **\$15.00**

Back is plain

IRON PIG

Rule the roads and the mud: it's Iron Pig time! Oink oink! This GS T-shirt pays homage to a beloved machine.

S, M, L, XL, XXL, & XXXL

TWISTED THROTTLE PROJECT BIKES

We prototype, test and IMPROVE our products!

Twisted Throttle is not like most other motorcycle product distributors. We IMPROVE our products based on testing and customer feedback. Most companies have no creative control over what they sell. We do!

Every year, we select a few special motorcycles to deck out with our products and put them to the test in real-world conditions so that we can improve what we sell. Take a look through the photo gallery of project bikes to get an idea of just how far we go to test our products!

To expand the scope of testing, we also partner with touring/rental companies, MotoQuest (see page 238), and GSM MotoRent (see the Super Tenere on page 234). These companies give us feedback about how our products hold up over the long-term on bikes that take a ton of abuse. This information helps us to improve existing products and develop new items that we feel confident will withstand the toughest riding conditions.

We have also teamed up with industry publications to help them develop their project bikes. See the ADV MOTO magazine's ADVersys below.

Friend us on Facebook, Follow us on Twitter, subscribe to our Youtube channel and check out our website to see all of the Twisted Project Bikes and to keep up-to-date on our upcoming projects!

Fully equipped, fully versatile

SW-MOTECH Skid plate

See the video!

ADV MOTO ADVERSYS

We partnered with ADV MOTO Magazine to help create the ADVersys. Luggage and storage, ergonomics, lighting, and crash protection accessories turn this ordinary Versys into a trail and trip-ready, dual-sporting machine.

Turn to page 194-195 to see what products are available for your Versys.

HONDA CANADA VARADERO

We teamed up with Honda Canada to outfit a Honda Varadero with burly crash protection, accessories, ergonomic improvements, Denali lighting, and luggage from SW-MOTEC/Bags Connection.

Turn to page 185 to see products that fit your Varadero.

See the video!

Twisted marketing guru K. Nixoid riding through the Chasm of Doom.

Full TRAX Luggage setup

TWISTED BMW S1000RR

Erik rolling her out.

Derek tearing her down.

Nate designing the graphics.

The completed project.

Our BMW S1000RR turns heads at the track and on the highway. Equipped with rock-solid crash protection products and style enhancements from R&G and SW-MOTEC makes this a Twisted favorite.

Turn to pages 162-163 to see what products are available for the S1000RR.

See the video!

PR Manager, Ken C, rides the S1000RR through "the bowl" at the New Hampshire Motor Speedway.

TWISTED BMW R1200GS

We outfitted our R1200GS with storage and crash protection products from SW-MOTECH/ Bags Connection, as well as Barkbusters Handguards, a Kaoko throttle lock, R&G axle sliders, and Denali lighting to create a complete adventure-bike package. This bike is ready to take on any terrain, anywhere!

To see products available for your R1200GS turn to pages 166-167.

On the road at the BMW MOA Rally...

...at ADV Eastern Rendezvous.

See the video!

TWISTED BMW F800GS

This GS lives up to its rugged family history but we knew we could make it better with durable SW-MOTECH crash protection, comfortable ergonomic upgrades, and much more. Our F800GS was the grand prize for the GS Challenge winner held at the 2011 BMW MOA Rally in Bloomsburg, PA.

Turn to page 159 to see how to transform your F800GS!

See the video of our F800GS!

Ripping it up in "the PIT".

Don't Ask...

Mr. Twisted feelin' good on Deal's Gap.

Looking pretty in the early morning light!

TWISTED KLR

The KILLER KLR!!! The trails won't know what hit 'em. The mighty KLR got the full complement of SW-MOTECH protection, ergonomic improvements, and storage. The KLR is a great bike to begin with. We just made it better.

Turn to pages 192-193 for a list of products for the KLR.

Early morning photo shoot.

Another day of Deals Gap riding.

Customer service manager, Derek, loves working on tail sections.

Matt W. from Customer Service working for the photoshoot.

See the video!

TWISTED TENERE IN DEALS GAP

We went down to GSM MOTORENT in Townsend, TN to outfit the newest member of the GSM rental fleet... a Yamaha Super Tenere!

Dan of GSM poses with Matt B. and Nate B. at Deals Gap.

Twisted Tenere bike-build on location in Tennessee.

GSM MOTORENT

You too can travel to the Great Smoky Mountains and ride the Twisted Tenere, go to GSMmotorent.com for details on rental and lodging.

Dan from GSM enjoying the Tenere.

See the video!

Twisted industrial designer, Nate, on the GSM Motorent Tenere at Deals Gap.

Turn to page 226 for Super Tenere product info.

TWISTED TRIUMPH TIGER 800

We outfitted this Tiger 800XC with R&G and SW-MOTECH crash protection, ergonomic upgrades, and luggage. This bike is ready for the road, as well as small invasions and everything in between. One of our favorites!

Turn to page 217 for more product info.

Taking the Tiger out for an early morning ride.

See the video!

She's lookin' pretty tame...

...getting there...

...from Tame to Twisted!

TWISTED PROJECT BIKES FOR 2012!

We have more projects planned for 2012, starting with the transformation of a 2012 Triumph Street Triple. Next in line is the new 2012 DL650 V-Strom. But we're not stopping there. We will be adding even more bikes to our fleet, so stay tuned throughout the year for updates on all of our Twisted project bikes!

2012 Suzuki DL650 V-Strom

Project Battle Scoot continues! This kymco scooter is our ongoing shop project...just for fun!

2012 Triumph Street Triple R

Every year, Twisted Throttle picks a few adventure riders to work with in raising money for charities. We help outfit their bikes and prepare them for round-the-world adventures undertaken to raise money for a good cause. We also provide their trip with added media visibility. If you're interested in working with us on a charitable project, send your proposals to sponsorships@twistedthrottle.com.

Stephanie Tarian

Stephanie Tarian is a sixteen year old with a purpose. This young lady is planning an epic motorcycle expedition that will take her around the world... and Twisted Throttle will be traveling right along with her! We outfitted Stephanie's 2011 BMW G650GS with rugged SW-MOTECH crashbars and skid plate for crash protection, as well as sidecarriers with TraX ALU-Boxes to securely carry her long list of necessities. To help light her way, we also installed a set of Denali LED lights!

This expedition will allow Stephanie to introduce adventure motorcycle riding to people of all ages from around the world and inspire young women and men to reach for their goals. Follow Stephanie as she circumnavigates the globe by logging onto the *Moto Teen World* and *Twisted Throttle* websites. Also, be sure to Friend Us on Facebook, and sign up to be on our mailing list so you can receive monthly updates.

"Challenges exist everywhere in life, and right now my challenge is to travel around the world on a motorcycle."

Stephanie Tarian

Stephanie believes in giving back! She will give 25% of all donations to the Make-a-Wish Foundation and participate in the Adopt-A-Wish program to help make a special kid's wish come true. www.wish.org

Moto Teen World

Patrick Trahan Update

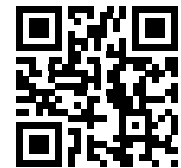

18 fractures! That's the result of hitting a pick-up truck head on at 75 mph. Many of you may recall that Twisted Throttle built and sponsored Patrick on his quest to raise money for **Children's Wish Foundation** by circumnavigating the African continent.

Patrick successfully raised \$5,000.00 for the Foundation. Unfortunately, Patrick's adventure was cut short just days into the trip. Thankfully, he survived and was evacuated to Johannesburg, South Africa where his injuries were tended to. It turns out that Patrick is a fast healer! He already has plans for an April tour through Morocco. Good for you Patrick!

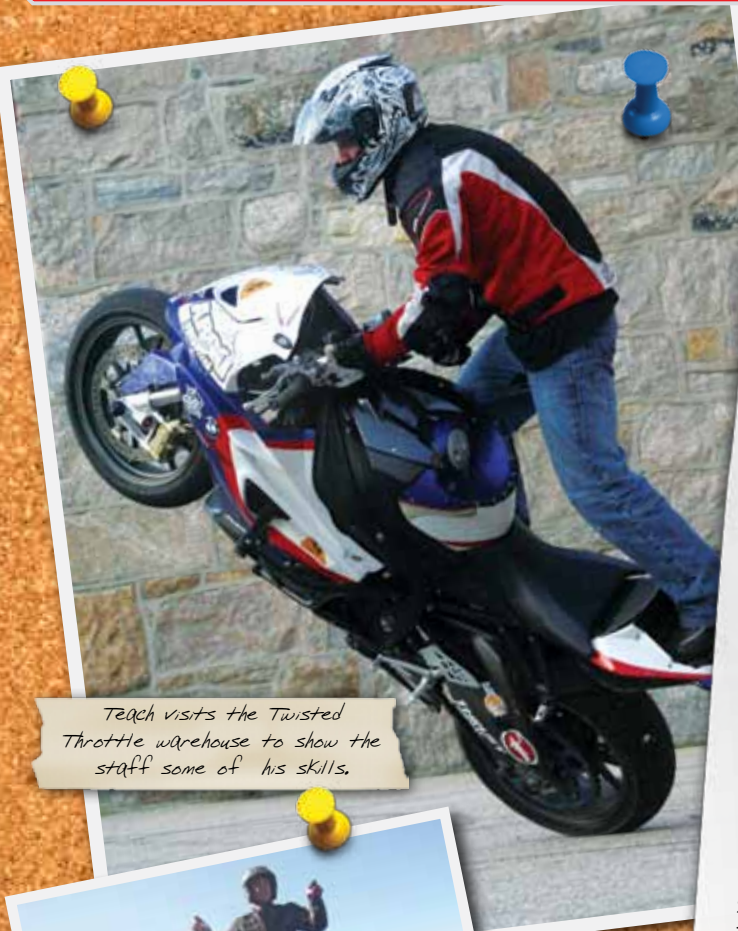

From Patrick's blog:
"I do believe in dreams and I will continue the fundraising when I am at home. And even if all doesn't go according to plan... do not stop dreaming."

Teach visits the Twisted Throttle warehouse to show the staff some of his skills.

Chris "Teach" McNeil

Who is "Teach" McNeil? Teach is a school teacher known worldwide as one of the most skilled stunt riders on the planet. A two-time XDL East Coast Champion and 2008 Stuntwars World Champion, McNeil has put his ability to the test and WON! A Lot!

We outfitted Teach's BMW F800GS and S1000RR so that he can do the brutal R&D that none of us are willing to do. Teach intentionally crashes his bikes during his stunt shows as a way to demonstrate just how durable our crash protection is!

Teach educates us about how well each piece of crash protection performs to see if improvements can be made. This type of R&D is infinitely valuable in helping us offer the toughest luggage and strongest protection available to our customers. It's what we do.

Scan this code to view an awesome video of Teach riding the Twisted-equipped BMW F800GS.

Teach demonstrates just how tough Barkusters handguards, Trax boxes, and SW-MOTECH crashbars really are.

MOTOQUEST
Ride Alaska & Beyond

Two wheels, One Life.

Twisted Throttle and MotoQuest have joined forces to offer both cutting-edge travel equipment and world-class motorcycle adventure tours.

MotoQuest offers the adventurous motorcyclist a variety of international tours, motorcycle rentals throughout North America and self-guided motorcycle tours in select locations worldwide. Ride with MotoQuest to one of our 15 global destinations and experience exceptional guides, support, motorcycles, food, and accommodations. Rent from MotoQuest and feel the joy of freedom on one of our adventure touring motorcycles. Take a self-guided tour with MotoQuest and leave the logistics of your motorcycle adventure to us. At MotoQuest, the ride is what counts. Regret is a word best left in the dictionary. Adventure is the only option. Come ride with MotoQuest.

MotoQuest is headquartered in Anchorage, AK and maintains a rental fleet of dual-sport bikes completely outfitted with Twisted Throttle gear. Each of MotoQuest's bikes sees over 20,000 miles of off-road terrain a year, including rocky river crossings, muddy single track, two-wheeled mountain climbing, multiple crashes, and more wind, rain, and snow than you'll see anywhere else in North America. MotoQuest provides Twisted Throttle with brutal feedback about what makes our gear break, serving as the harshest torture testing lab we have anywhere in the world. MotoQuest's destructive R&D help means you get a more durable, better designed product from Twisted Throttle.

Want to do some R&D for us? Sign up for one of MotoQuest's guided adventure tours, today.

MotoQuest Tour Packages include:

- Airport pick-up/drop-off
- Motorcycle rental
- Experienced Guides
- Support vehicle and mechanical support
- All accommodations
- Welcome and farewell dinners
- DVD of photos from your tour
- Detailed itinerary/maps packet
- MotoQuest motorcycle "swag bag"

Motorcycle Rentals

Rentals now available in:

- Anchorage, AK
- Seattle, WA
- Long Beach, CA
- Portland, OR
- Denver, CO

All rental bikes are outfitted with:

- Side luggage and tank bag.
- Engine guards, skid plate, hand guards, and centerstand.
- Power socket for electronics.
- Tools, spare inner tubes, and a canister for extra fuel.

Alaska-approved riding gear, including helmets, jackets, pants, gloves, and boots, are also available for rent.

To book a tour or rental, visit MotoQuestTours.com
or call MotoQuest at (800) 756-1990

Featured 2012 Tours

South Africa Backroads Adventure
Apr 8th 2012 - Apr 24th, 2012 (17 days)
Starts in: Cape Town

This IS the ultimate backroads adventure in South Africa with a mix of challenging dirt riding with elegant accommodations. Meet us in Cape Town, South Africa and ride to the most southern tip of Africa. This dirt-oriented adventure features epic coastline, rugged mountain passes, and wildlife. Experience the real South Africa, on and off the beaten path.

**Patagonia End of the Earth
Motorcycle Adventure Tour**
Nov 4th - Nov 20th, 2012 (17 days)
Starts in: Osorno, Chile

This tour takes you through the Andes to the most remote parts of Patagonia. See Torres Del Paine National Park, Perito Moreno Glacier and Tierra Del Fuego. Stay in Ushuaia, at the end of the earth. Along the way, see guanacos, gauchos, and glaciers. This is a ride of a lifetime.

Indochina Adventure
Nov 4th - Nov 18th, 2012 (15 days)
Starts in: Hanoi

Ride from Hanoi, Vietnam to Vientiane, Laos. This tour spans two countries, two motorcycles, two cultures, and two capital cities. Ride a Russian made Ural in Vietnam, and a Honda XR250 in Laos. The riding is challenging with roads that are dirt and paved. Enjoy thousands of curves, remote villages, and friendly smiles as you ride through extremely mountainous country.

How to Order

We're just a call or a click away!

Order 2 ways:

1. Order online 24/7 at TwistedThrottle.com

2. Call Us

+1 (855) 255-5550 toll free in North America

+1 (401) 284 4200 International

Monday - Friday 9:00am - 7:30pm Eastern Time (GMT-5)

Saturday 10:00am - 6:00pm Eastern Time (GMT-5)

COME VISIT!

If you are traveling through New England, come visit our showroom and the nearby southern Rhode Island coastline! Give us a call and we'll help you with hotel, or campgrounds, directions, etc. You can download maps and directions at TwistedThrottle.com/contact.

GPS: +41.56484, -71.65942

PAYMENT METHODS

We accept Visa, MasterCard, Discover, and American Express for online, phone, and fax orders. Checks, money orders, and wire transfers are acceptable for mail orders.

GIFT CERTIFICATES

Need to find a gift for your favorite motorcyclist, but not sure what they need for their next big trip? Purchase a gift certificate online and we'll send you, or the recipient, a Gift Certificate for the requested amount along with a copy of our catalog!

PROFESSIONAL DISCOUNTS

We offer a 10% discount to active MSF Instructors, media test riders and writers for print magazines. We hope that this will encourage introduction of our products to potential customers through rider-to-rider endorsements. Give us a call or send us an email to get set up with the discount.

OUTLET STORE (Scratch and Dent)

We offer discounts on returned, scratched, dented, overstocked, and discontinued closeout items through our outlet store at TwistedThrottle.com/outletstore.

SHIPPING POLICY

We ship worldwide! In-stock items ship within 1 business day from our Rhode Island warehouse. Items in stock and shipping from one of our satellite warehouses in other locations typically ship within 1-3 business days. Call us to place your order if you need delivery by a specific date! If an item is not available for immediate shipment, we will email and call you to notify you of what the expected ship date is, as well as recommend in-stock alternatives or provide the option of cancelling the order.

We ship all domestic packages via FedEx. Shipments to locations outside of the United States can be shipped via FedEx or USPS Global Express Mail. In addition to our shipping fees, the recipient is responsible for paying any brokerage or duties due on international shipments.

You will automatically receive an email confirming your order, and will receive a second email with a tracking number within 1 business day of when we ship your order.

The BMW Rally in Garmisch, Germany. Lots of bikes, beer, and some kind of german meat.

Adam R. getting ready to head out to the ADV Easter Rendezvous

RETURN POLICY

Returns and exchanges for stock merchandise, less all shipping fees, are accepted for items returned in new, uninstalled, unused condition with all original packaging. The client must pay the cost of return shipping. If a shipment arrives damaged or defective, contact us IMMEDIATELY via phone or email. We will replace the damaged or defective part with an identical new item at no cost to you following the return of the damaged or defective part.

No returns or exchanges are accepted on items shipped more than 45 days ago, windscreens that have been removed from their original factory sealed packaging, items that have been installed on a motorcycle, or special orders.

ARRANGING A RETURN

Call our Customer Service Department during normal business hours to obtain a Return Authorization Number (RA) prior to sending the return package. Please make sure to package the parts in all their original packaging and pack the return shipment so that all parts will be protected from damage during return shipment. Include your original invoice in the box and write the Return Authorization Number (RA) on the outside of the box. Ship the package to:

Twisted Throttle
ATTN: Returns
570 Nooseneck Hill Rd
